Using SCIT	<ul style="list-style-type: none"><li><b>NOTE:</b> <i>Save Smart Census Import Template (SCIT) on your local drive before using. If working from a network drive, SCIT performance may be slower.</i></li><li>Keep <b>only one SCIT file open</b> at a time. If multiple windows are open, SCIT will not behave as expected.</li></ul>
Copy/Paste	<ul style="list-style-type: none"><li><b>Paste copied data as VALUES</b> to avoid overwriting Excel formatting via Paste Special.</li></ul>
Find & Replace	<ul style="list-style-type: none"><li><b>This functionality is not available in Tool.</b> If you need to use this functionality, update source document and paste copied data as <b>VALUES</b> into Tool to avoid overwriting Excel formatting via Paste Special.</li></ul>

# Version 18 Release Notes

## Enrollment

*Small Group /  
Middle Market*

- When validating data, spouse and dependent addresses are not removed.

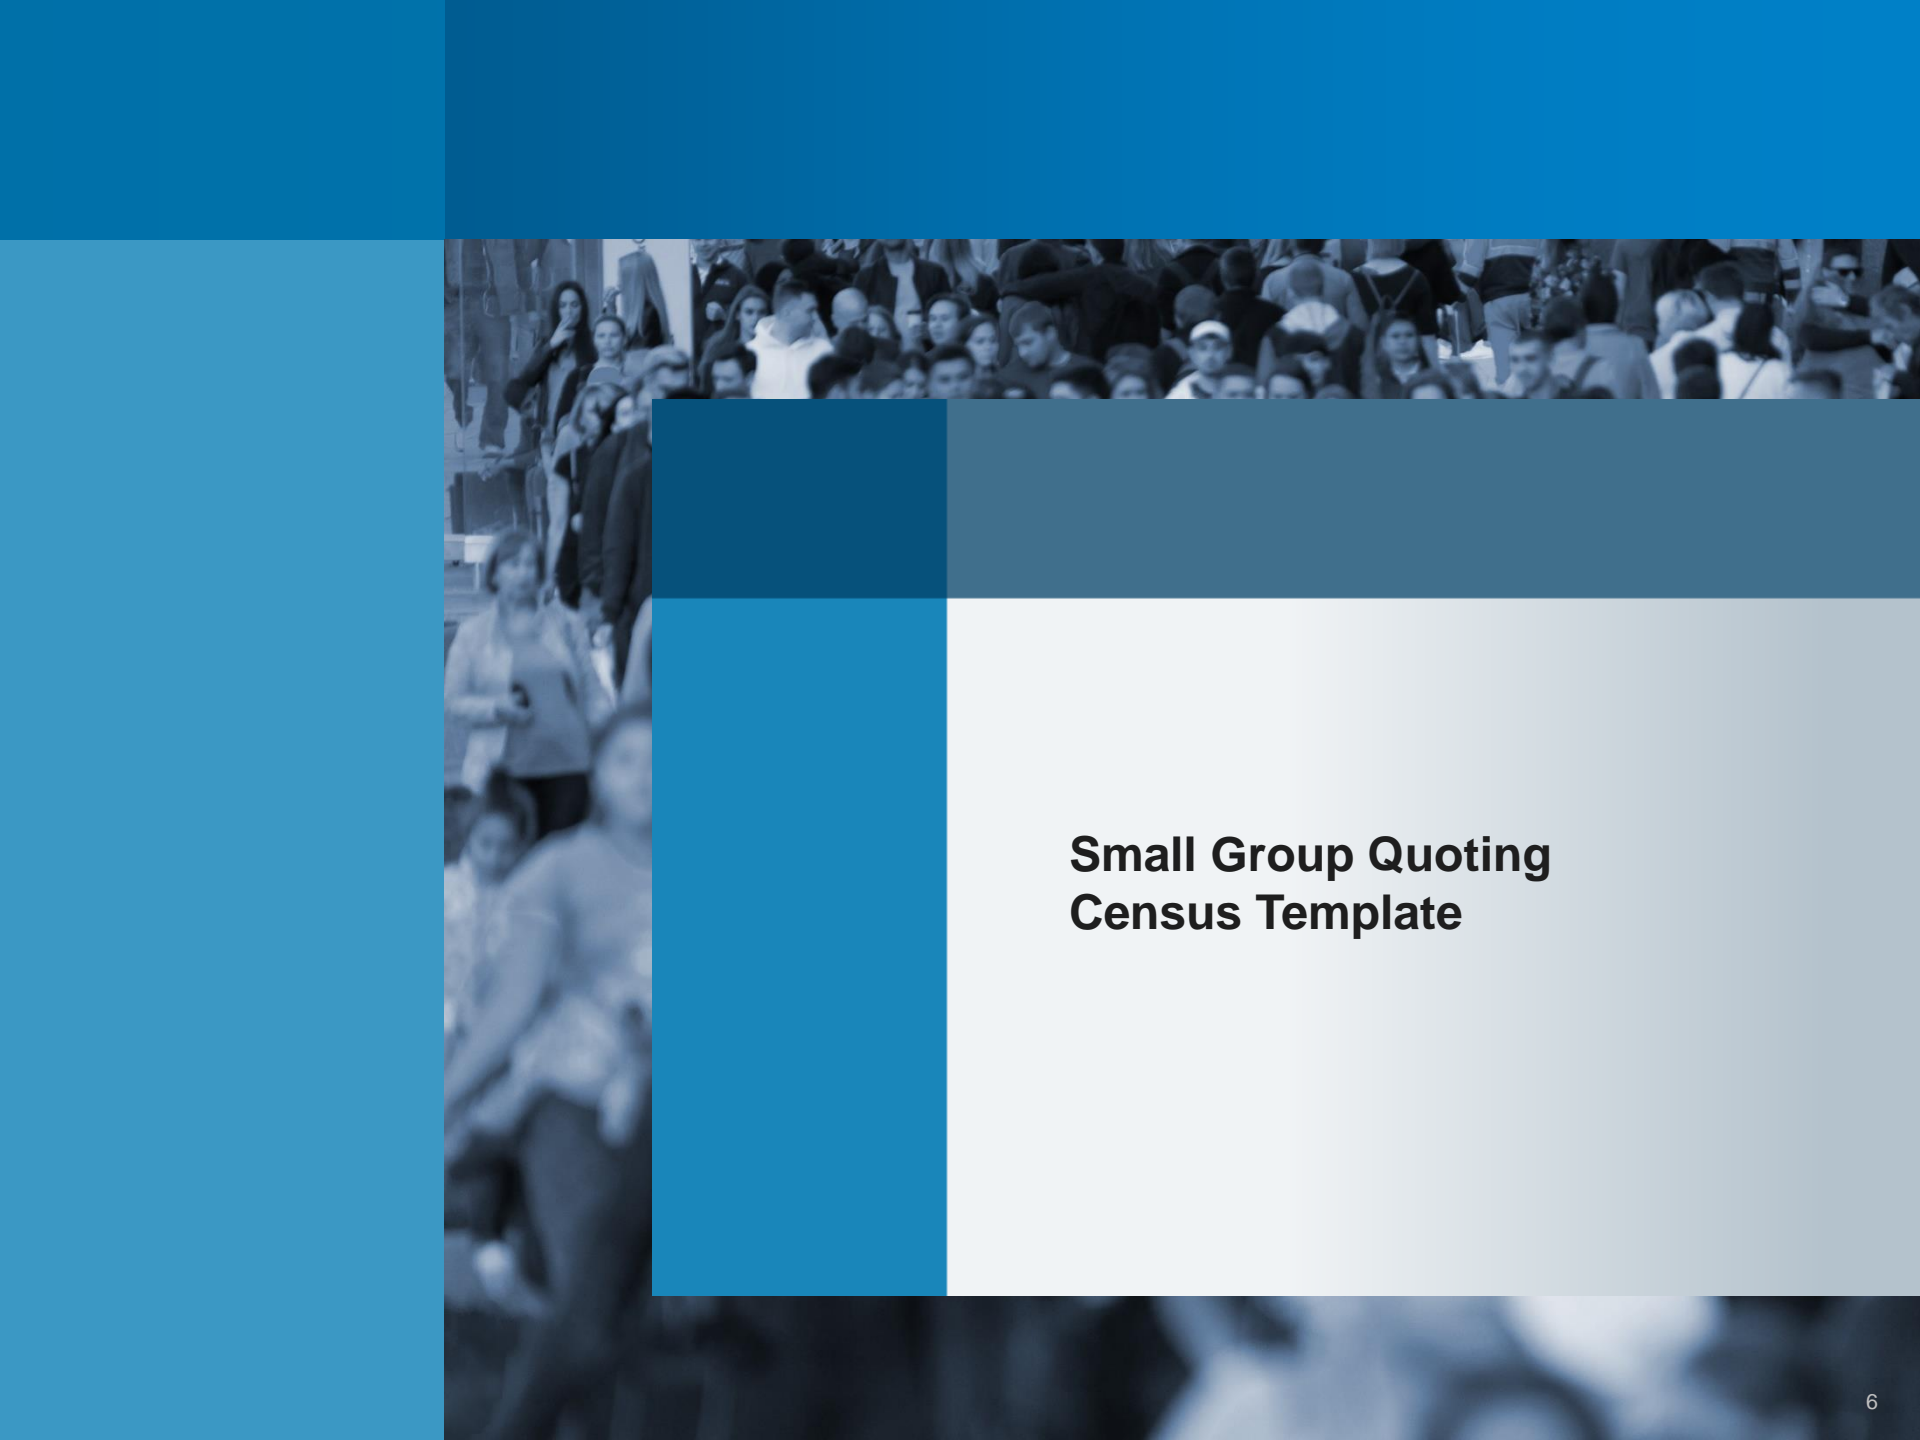

## Enhancement

- Removed **Save As** functionality. User no longer has to save file with a Group name and assign a location.

# Steps for Entering a Group Census

1. Open **Smart Census Import Tool (SCIT)** and save under the group's name.
2. Complete **Census Tool Setup Form**.
3. Enter data in the **Census Template** tab.
4. If the Census is provided on a separate spreadsheet, click **Map** button on the **Setup Form** OR click the **Green button** to enter data. Click **AutoFill** button to systematically default a value for select columns, as applicable.
5. Click **File > Save** to validate data.
6. An **Error List** will be generated.
7. Upon successful validation, SCIT is ready to be **uploaded** in the Group Sales tool or an extract can be generated for automation.
8. Enter Census for the next group.

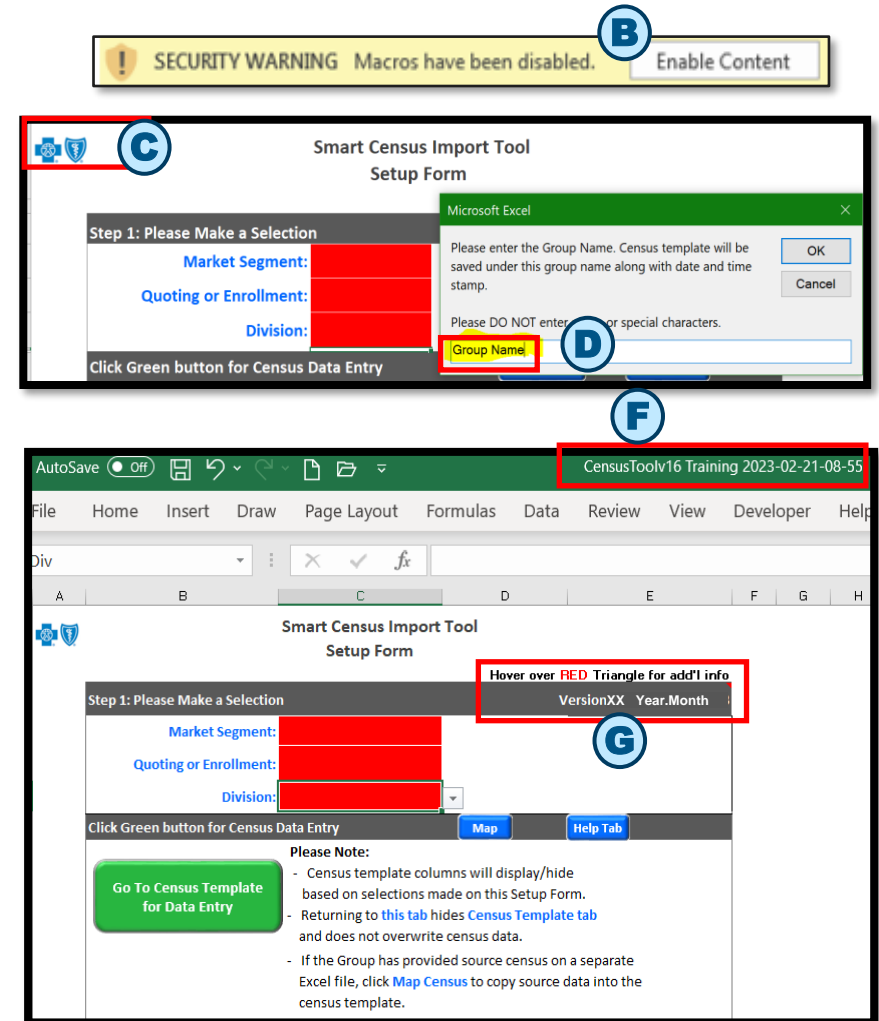

## **Small Group Quoting Census Template**

# Open SCIT and Save Under Group Name

- A. From Excel menu, select **File > Open**. Go to the folder where SCIT is saved, select SCIT and click **Open**.
- B. On File > Open, click **Enable Content**. Skip this step if macros are enabled through **File > Options** menu. Please see “Enable Macros” in Technical References for instructions.
- C. Once **Division** is selected, state will be displayed to the left of logo.
- D. In the pop-up box, type in the **Group Name** and click **OK**. Do not include spaces or any special characters.
- E. Select a **Folder** to save the Group’s Census and click **OK**.
- F. The file is saved under the **Group’s Name** along with the date and time stamp. Original SCIT file stays intact and is not overwritten.
- G. **Version** is displayed with date. To view the latest updates to current version, click the small **red** triangle to the right of Version date.

# Complete Setup Form: Make a Selection

The screenshot shows the 'Smart Census Import Tool Setup Form' for BlueCross BlueShield of Illinois. The form is titled 'Step 1: Please Make a Selection'. It contains three main selection fields: 'Market Segment' set to 'SMALL GROUP', 'Quoting or Enrollment' set to 'QUOTING', and 'Division' set to 'IL'. A red box highlights the BlueCross BlueShield of Illinois logo (labeled D). A red triangle icon (labeled E) is in the top right corner with a tooltip that says 'Hover over RED Triangle for add'l info'. A pink box highlights the 'Version XX' field (labeled F). A green box highlights the 'QUOTING' dropdown menu (labeled B). A blue circle labeled A is next to 'SMALL GROUP'.

**A.** Select a **Market Segment**: **SMALL GROUP**

**B.** Select **QUOTING**.

**C.** Select a **Division** from the dropdown list.

*Once these fields are populated, the Template is displayed and ready for data entry.*

**D.** Logo will change based on **Division** selection.

**E.** Click **red** triangle displays latest changes.

**F.** SCIT **Version** number with **Date** appended to the right.

# Complete Setup Form: Other Fields

Step 1: Please Make a Selection

Market Segment: **SMALL GROUP**

Quoting or Enrollment: **QUOTING**

Division: **IL**

Click Green button for Census Data Entry

**Go To Census Template for Data Entry**

**Please Note:**

- Census template columns will display/hide based on selections made on this Setup Form.
- Returning to [this tab](#) hides [Census Template tab](#) and does not overwrite census data.
- If the Group has provided source census on a separate Excel file, click [Map Census](#) to copy source data into the census template.

**Map** **Help Tab**

**G.** Click the **Map** button if you have received Census from the group on a **separate spreadsheet** (Source). This feature will enable you to copy and map the Source columns to the Census Template columns. After columns are mapped, data will be copied over to the Census Template systematically per the mapping.

**H.** Click the **Help Tab** button to navigate to the **GrpInfoHelpFile** tab. This tab has detailed specifications for the entries on the **Group Information** tab.

**I.** Click the **Green button** to navigate to the **Quoting Census Template** for manual data entry.

**Auto Fill** **State from zip**

Last Name	First Name	Relationship Code	Gender (M or F)	DOB (mm/dd/yyyy)	Coverage Type	State Code
		Employee				

**DO NOT INCLUDE** part-time employees, employees waiving coverage or in waiting period on Census.

**J.** Click the **AutoFill** button to systematically populate information for select columns.

# Help Information

<u>First Name</u>	<u>Relationship Code</u>
<b>A</b> ⓘ	ⓘ
Employee	

A. Clicking **Help** icon ⓘ will move the cursor to that exact Column in the **Quoting Help File** tab.

**Example:** Clicking Help icon in the **First Name** header will move the cursor to the **First Name** row of the **Quoting Help File** tab.

Field Name	Formatting Specifications	Maximum Permissible Length
Last Name	Alphabetic, numeric, and special characters	20
First Name	Alphabetic, numeric, and special characters	20

Step 1: Please Make a Selection

**Market Segment:** SMALL GROUP

**Quoting or Enrollment:** QUOTING

**Division:** IL

Click Green button for Census Data Entry

**Map** **Help Tab**

<b>Group Information</b>	<b>GrpInfoHelpFile</b>
--------------------------	------------------------

Click the **Help Tab** button to navigate to the **GrpInfoHelpFile** tab. This tab has detailed specifications for the entries on the **Group Information** tab.

# Small Group Quoting Enter Data

<div>A</div> <div>Last Name</div> <div>i</div>	<div>First Name</div> <div>i</div>	<div>Relationship Code</div> <div>B i</div>	<div>Gender (M or F)</div> <div>i</div>	<div>DOB (mm/dd/yyyy)</div> <div>i</div>	<div>AUTO FILL</div> <div>Coverage Type</div> <div>i</div>	<div>AUTO FILL</div> <div>State from zip</div> <div>State Code</div> <div>i</div>
<div>C</div>		Employee	<div>D</div>		<div>E</div>	

- A. Column headers are **Read Only**. Columns cannot be deleted or moved.
- B. Row #2 **Relationship Code** value defaults to **Employee**.  
*Do not change this value.*
- C. Beginning with Row #3, rows can be inserted or deleted as needed.
- D. The entire cell is highlighted in **red** for required columns. The entire cell is highlighted in **yellow** when there is a data mismatch. For **DOB** column, over-age dependents (26 & over), the cells are highlighted in **purple** and 65 & over entries will be highlighted in **green** for information purposes.
- E. When you type in a value and click **Enter**:
  - If the value is invalid, an error message displays with **Retry**, **Cancel** and **Help** buttons.
  - **Retry** returns you to the typed-in value for editing and **Cancel** wipes out the typed-in value and returns you to the cell.

# Small Group Quoting Enter Data

<u>Last Name</u> 	<u>First Name</u> 	<u>Relationship Code</u> 	<u>Gender</u> (M or F) 	<u>DOB</u> (mm/dd/yyyy) 	 <u>Coverage Type</u> 	 <u>State Code</u> 
		Employee				

Values can be copied and pasted onto the Census columns.

**NOTE:** *Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.*

- If copying data from an external source, please make sure that the source column format matches the format of the corresponding import Census Template column.
- If copy/pasting data from an external source causes cells to lock in SCIT, click **File > Save** to unlock them.

**F.** **Help** icons are available below the header name of each column.

**G.** **AutoFill** buttons are available in the header for select columns.

**H.** **State from Zip** button derives state based on zip code entered.

# Small Group Quoting Map Census Feature

Step 1: Please Make a Selection

Market Segment: **SMALL GROUP**

Quoting or Enrollment: **QUOTING**

Division: **IL**

Click Green button for Census Data Entry

**Map** **Help Tab**

Last Name (Case Sensitive)	First Name (Case Sensitive)	Relationship Code (follow Help file instructions)	Gender (M or F)	DOB (mm/dd/yyyy)	Coverage Type (follow Help file instructions)	State Code	Retiree (IL Only)	Annual Salary	Life Class
Doe1	John	Employee	M						
Doe2	Janice	Spouse	F						
Doe3	Steve	Employee	M						
Doe4	Fred	Employee	M						
Doe5	Rebecca	Spouse	F						
Doe6	Susan	Dependent	F						
Doe7	Marcha	Dependent	F						

**Instructions**

1) Copy and paste the entire census from Group's spreadsheet in Source Census From The Group tab.  
 --Before copying from Source file, the Source file should be open along with Smart Census Tool file.  
 --Make sure there is only 1 header row.  
 --Header row and data should not have merged cells.  
 --Make sure there are no blank rows/columns in between the data.

2) Click Yes to proceed to Census Mapping tab.  
 -- Or Click Cancel to skip this step and go to Census Template tab.

If using mapping feature more than 1 time:  
 a) Erase existing census on the Source Census From The Group tab.  
 b) Repeat Steps 1 and 2 listed above.

☐ Yes ☐ Cancel

**Source Census From The Group** **Group Information**

A. Click **Map** button if you have a Census on a separate spreadsheet.

B. **Source Census From The Group** worksheet (tab) displays along with a helpful **Instructions** panel.

C. Copy and paste Census information from **Source** spreadsheet to this worksheet.

**NOTE:** Paste copied data as **VALUES** to avoid overwriting Excel formatting via **Paste Special**.

- There should only be one header row.
- Header row and data should not have merged cells.
- Make sure there are no blank rows OR columns in between the data.

D. Click **Yes** to proceed to **Quoting Census Mapping** tab after pasting the Source.

E. Click **Cancel** to skip **Map** feature and go to the Census Template.

**NOTE:** If using mapping feature more than once:

Delete the existing Census on the **Source Census From the Group** worksheet (tab).  
 Repeat **steps C and D** above.

# Small Group Quoting Mapping Census

**A** Small Group Quoting Import Census Template Columns

Map Group's Source Census Columns (Select from drop down list)	Source Census Column Letter (For Information Only)
Last Name (Case Sensitive)	
First Name (Case Sensitive)	
Relationship Code <sup>DDL</sup>	
Gender (M or F) <sup>DDL</sup>	
DOB (mm/dd/yyyy)	
Coverage Type <sup>DDL</sup>	
State Code <sup>DDL</sup>	
Retiree (IL Only) <sup>DDL</sup>	
Annual Salary	

**B** Mapping Source Columns to Census Template Columns

Column A has column headers from the Census Template. Column B has a drop down list with values which are column headers from the source file. Column C is for informational purpose only.

**C**

Steps for Mapping:

1) In **Column B**, select a value from the drop down list that corresponds to the value in **Column A**.

**Note:** Census Template Columns with a drop down list are denoted by <sup>DDL</sup>.

If columns with DDL are mapped, the value on the source file must match the values in the drop down list. On the Census Template, **File Save** data validation will erase values which do not match the drop down list. If mapping multiple times, Column B values will be stored from previous time. Column B values which do not match the Source Census Header will be highlighted in Yellow. Please update Column B values as needed for the current mapping.

2) Click **Copy Mapped Columns** button to copy the mapped source columns systematically to Census Template tab.

3) Click **Cancel** button to skip the mapping and go to Census Template tab to enter census.

## A. Census Mapping tab displays.

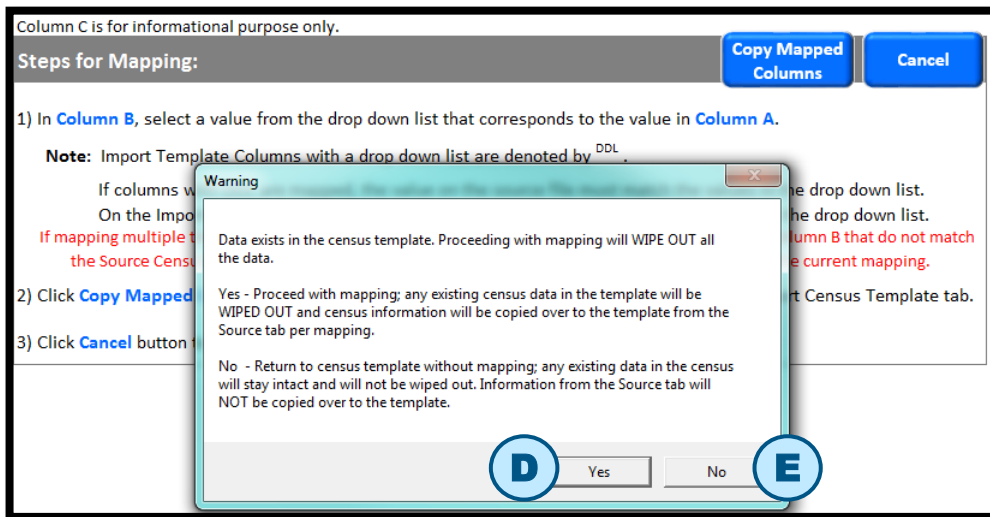

- **Column A** displays column headers from the Small Group Quoting Template.
- **Column B** has a dropdown list with values which are column headers from the source file.
- **Column C** is for information purpose only.
- **Instructions** display to the right.

## B. In **Column B**, select a value from the dropdown list that corresponds to the value in **Column A**.

- C.** Click the **Copy Mapped Columns** button to copy the mapped source columns systematically to the **Census Template** tab.
- Click the **Cancel** button to skip the mapping and go to **Census Template** tab to enter Census.

# Small Group Quoting Mapping Census

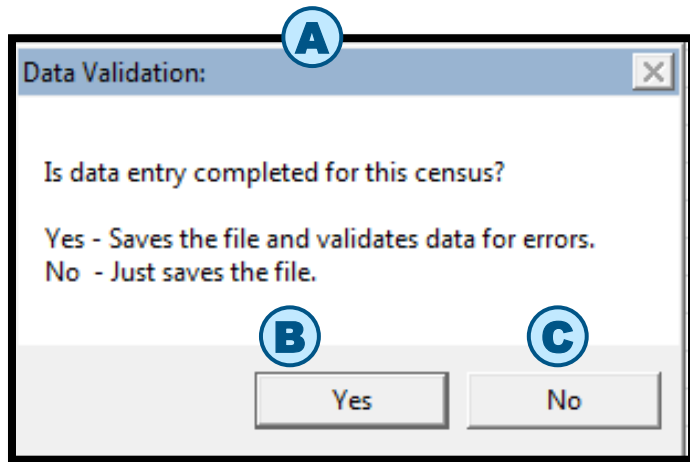

**D.** Click **Yes** to proceed with mapping. If data exists on the Census Template, a **Warning** message displays.

**NOTE:** Any existing Census data in the Census Template will be WIPED OUT and the Census information will be copied over to the Template from the Source tab per mapping.

- Mapped data is systematically copied over to the Census Template.
- Complete Census entry as needed.

**E.** Click **No** to return to the Census Template without mapping. Existing data will not be overwritten and will remain unchanged.

# Small Group Quoting: File > Save Validation

A. Click **File > Save**.

A **Data Validation** box displays.

B. Click **Yes** to proceed with validation, auto-populate values and generate an error list if there are any errors.

- File is saved.
- Data will be validated.
- An error list is generated if there are errors.

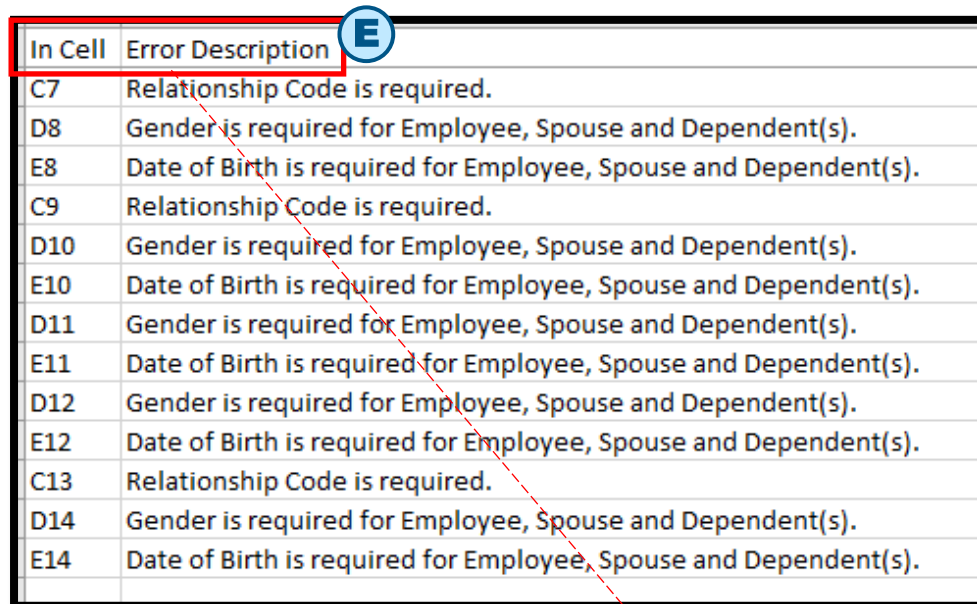

C. Click **No** to save the file and bypass validation.

D. Message box displays if errors are found. Click **OK** to navigate to **Error List** tab to review the errors.

- On **File > Save** validation, errors will be displayed in the **Error List** tab.

# Small Group Quoting: Error List

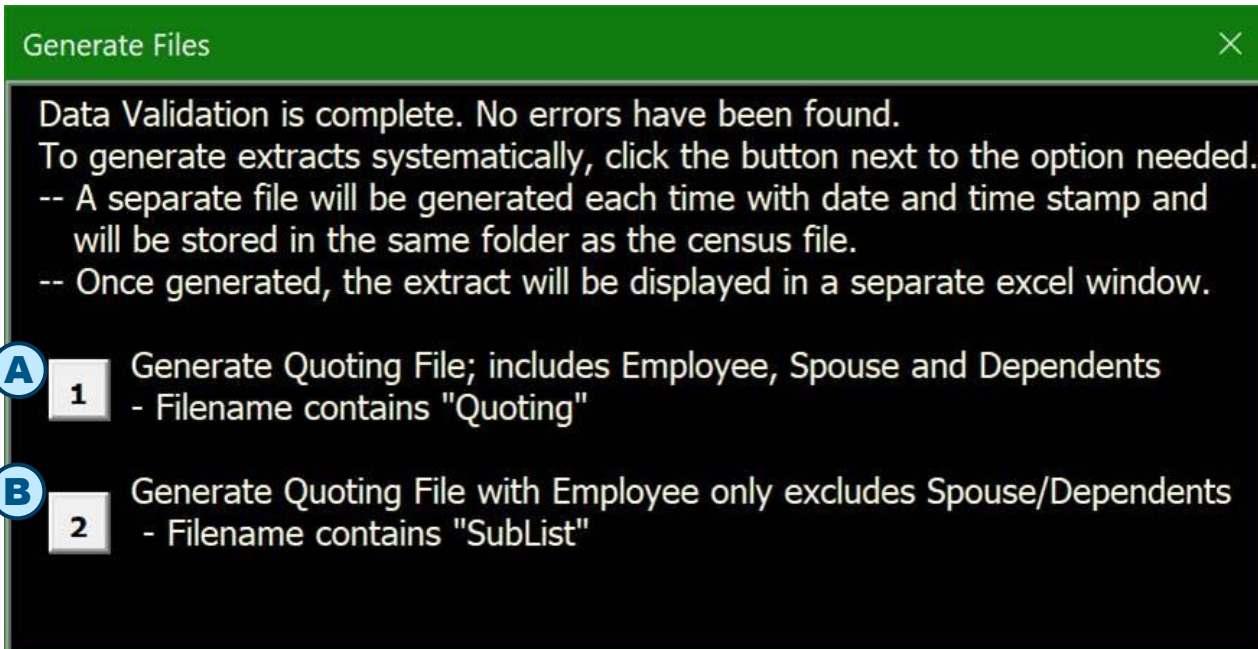

In Cell	Error Description
C7	Relationship Code is required.
D8	Gender is required for Employee, Spouse and Dependent(s).
E8	Date of Birth is required for Employee, Spouse and Dependent(s).
C9	Relationship Code is required.
D10	Gender is required for Employee, Spouse and Dependent(s).
E10	Date of Birth is required for Employee, Spouse and Dependent(s).
D11	Gender is required for Employee, Spouse and Dependent(s).
E11	Date of Birth is required for Employee, Spouse and Dependent(s).
D12	Gender is required for Employee, Spouse and Dependent(s).
E12	Date of Birth is required for Employee, Spouse and Dependent(s).
C13	Relationship Code is required.
D14	Gender is required for Employee, Spouse and Dependent(s).
E14	Date of Birth is required for Employee, Spouse and Dependent(s).

## E. Error List tab will display:

- **In Cell** column – specifies the cell location of the error.
- **Error Description** column – specifies the column and the nature of the error.
- To update the values, click the **Small Group Quoting Census** tab. Change the values as needed.
- You can toggle between the **Error List** and **Census Template** tabs.
- Once you have corrected any errors, validate data again by clicking **File > Save**. Select **Yes** in the **Is Data Entry Complete?** message box.

# Generate Small Group Quoting Files

On successful data validation, **Generate Files** message box displays. A separate file is generated with date and time stamp.

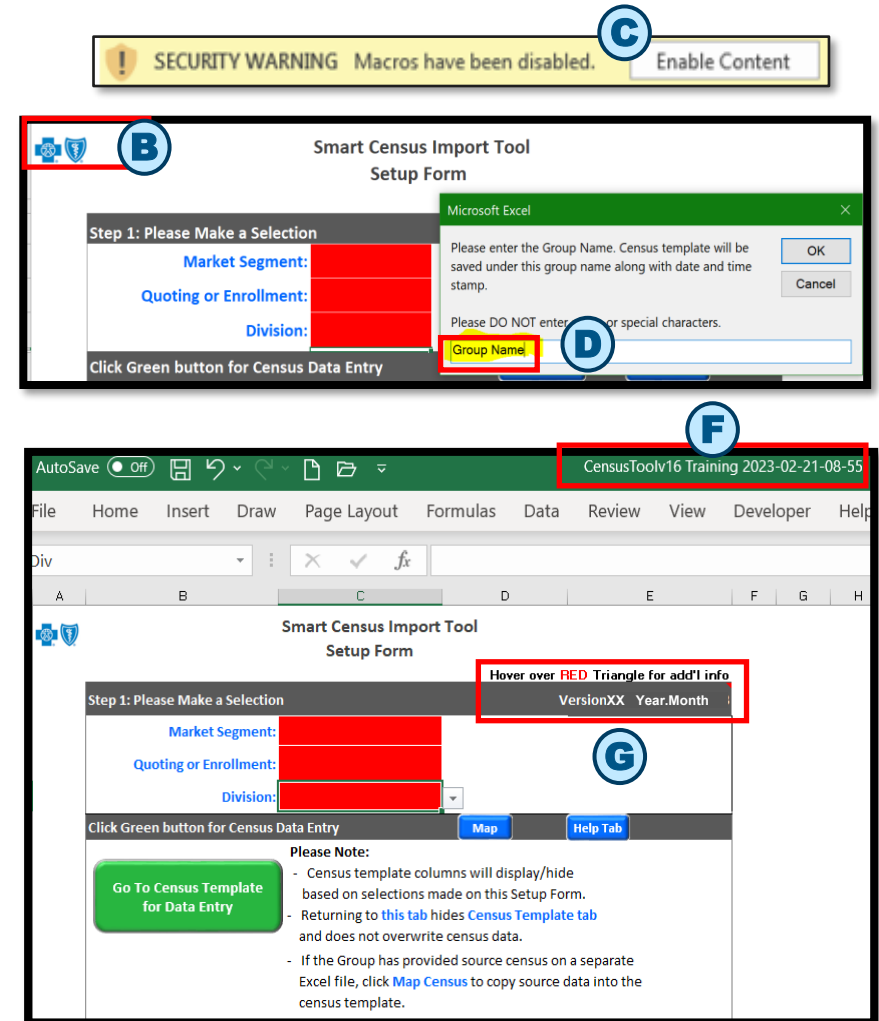

- A. Click the first option to generate quoting file with all members – Employees, Spouses and Dependents. This is the most common option.
- B. Click the second option to generate quoting file with **Employees** only.

## **Middle Market Quoting Census Template**

# Open SCIT and Save Under Group Name

- A. From Excel menu, select **File > Open**. Go to the folder where SCIT is saved, select SCIT and click **Open**.
- B. Once **Division** is selected, state will be displayed to the left of logo.
- C. On File > Open, click **Enable Content**. Skip this step if macros are enabled through **File > Options** menu. Please see “Enable Macros” in Technical References for instructions.
- D. In the pop-up box, type in the **Group Name** and click **OK**. Do not include spaces or any special characters.
- E. Select a **Folder** to save the Group’s Census and click **OK**.
- F. The file is saved under the **Group’s Name** along with the date and time stamp. Original SCIT file stays intact and is not overwritten.
- G. **Version** is displayed with date. To view the latest updates to current version, click the small **red** triangle to the right of Version date.

# Complete Setup Form: Make a Selection

The screenshot shows the 'Smart Census Import Tool Setup Form'. At the top left is the BlueCross BlueShield of Illinois logo, which is circled in red and labeled 'D'. The title 'Smart Census Import Tool Setup Form' is centered at the top. Below the title is a dark grey bar with 'Step 1: Please Make a Selection' on the left and 'Version XX Release: YYYY.MM' on the right. A red line connects the 'Version' text to a red triangle icon in the top right corner, labeled 'E'. A red bracket connects the 'Version' text to a blue circle labeled 'F'. The main content area has three lines: 'Market Segment: MID MARKET' (labeled 'A'), 'Quoting or Enrollment: QUOTING' (labeled 'B'), and 'Division: IL' (labeled 'C'). A text label 'Hover over RED Triangle for add'l info' is positioned above the red triangle icon.

A. Select a Market Segment: **MID MARKET**

B. Select **QUOTING**.

C. Select a **Division** from the dropdown list.

*Once these fields are populated, the Template is displayed and ready for data entry.*

D. Logo will change based on **Division** selection.

E. Click **red** triangle displays latest changes.

F. SCIT **Version** number with **Date** appended to right.

Instructions

1) Copy and paste the entire census from Group's spreadsheet in Source Census From The Group tab.  
 --Before copying from Source file, the Source file should be open along with Smart Census Tool file.  
 --Make sure there is only 1 header row.  
 --Header row and data should not have merged cells.  
 --Make sure there are no blank rows/columns in between the data.

2) Click Yes to proceed to Census Mapping tab.  
 -- Or Click Cancel to skip this step and go to Census Template tab.

If using mapping feature more than 1 time:  
 a) Erase existing census on the Source Census From The Group tab.  
 b) Repeat Steps 1 and 2 listed above.

☐ Yes    ☐ Cancel

## A. Copy Census information from the group Census spreadsheet to **Source Census From The Group**.

- There should only be one header row.
- Header row and data should not have merged cells.
- Make sure there are no blank rows OR columns in between the data.

**NOTE:** The Source Census From The Group could be in different column sequence.

## B. After information has been pasted, click **Yes** to proceed to **Quoting Census Mapping** tab.

## C. Click **Cancel** to skip this step and go to Census Template tab.

## D. If using mapping feature more than once:

- Delete the existing Census on the **Source Census From The Group** worksheet (tab).
- Repeat steps 1 and 2 in the instructions pop-up box, above.

# Middle Market Quoting Mapping Census

E10	Date of Birth is required for Employee, Spouse and Dependent(s).
D11	Gender is required for Employee, Spouse and Dependent(s).
E11	Date of Birth is required for Employee, Spouse and Dependent(s).
D12	Gender is required for Employee, Spouse and Dependent(s).
E12	Date of Birth is required for Employee, Spouse and Dependent(s).
C13	Relationship Code is required.
D14	Gender is required for Employee, Spouse and Dependent(s).
E14	Date of Birth is required for Employee, Spouse and Dependent(s).

## E. Error List tab will display:

- **In Cell** column – specifies the cell location of the error.
- **Error Description** column – specifies the column and the nature of the error.
- To update the values, click the **Mid Market Quoting Census** tab. Change the values as needed.
- You can toggle between the **Error List** and **Census Template** tabs.

Once you have corrected any errors, validate data again by clicking **File > Save**. Select **Yes** in the **Is Data Entry Complete?** message box.

# Generate Middle Market Quoting Files

On successful data validation, **Generate Files** message box displays. Select output option:

- A.** Click the first option to generate quoting file with all members – Employees, Spouses and Dependents. This is the most common option.
- B.** Click the second option to generate quoting file with **Employees** only.
- C.** A separate file will be generated with date and time stamp and a confirmation will display. Click OK.

# Enter Census Data

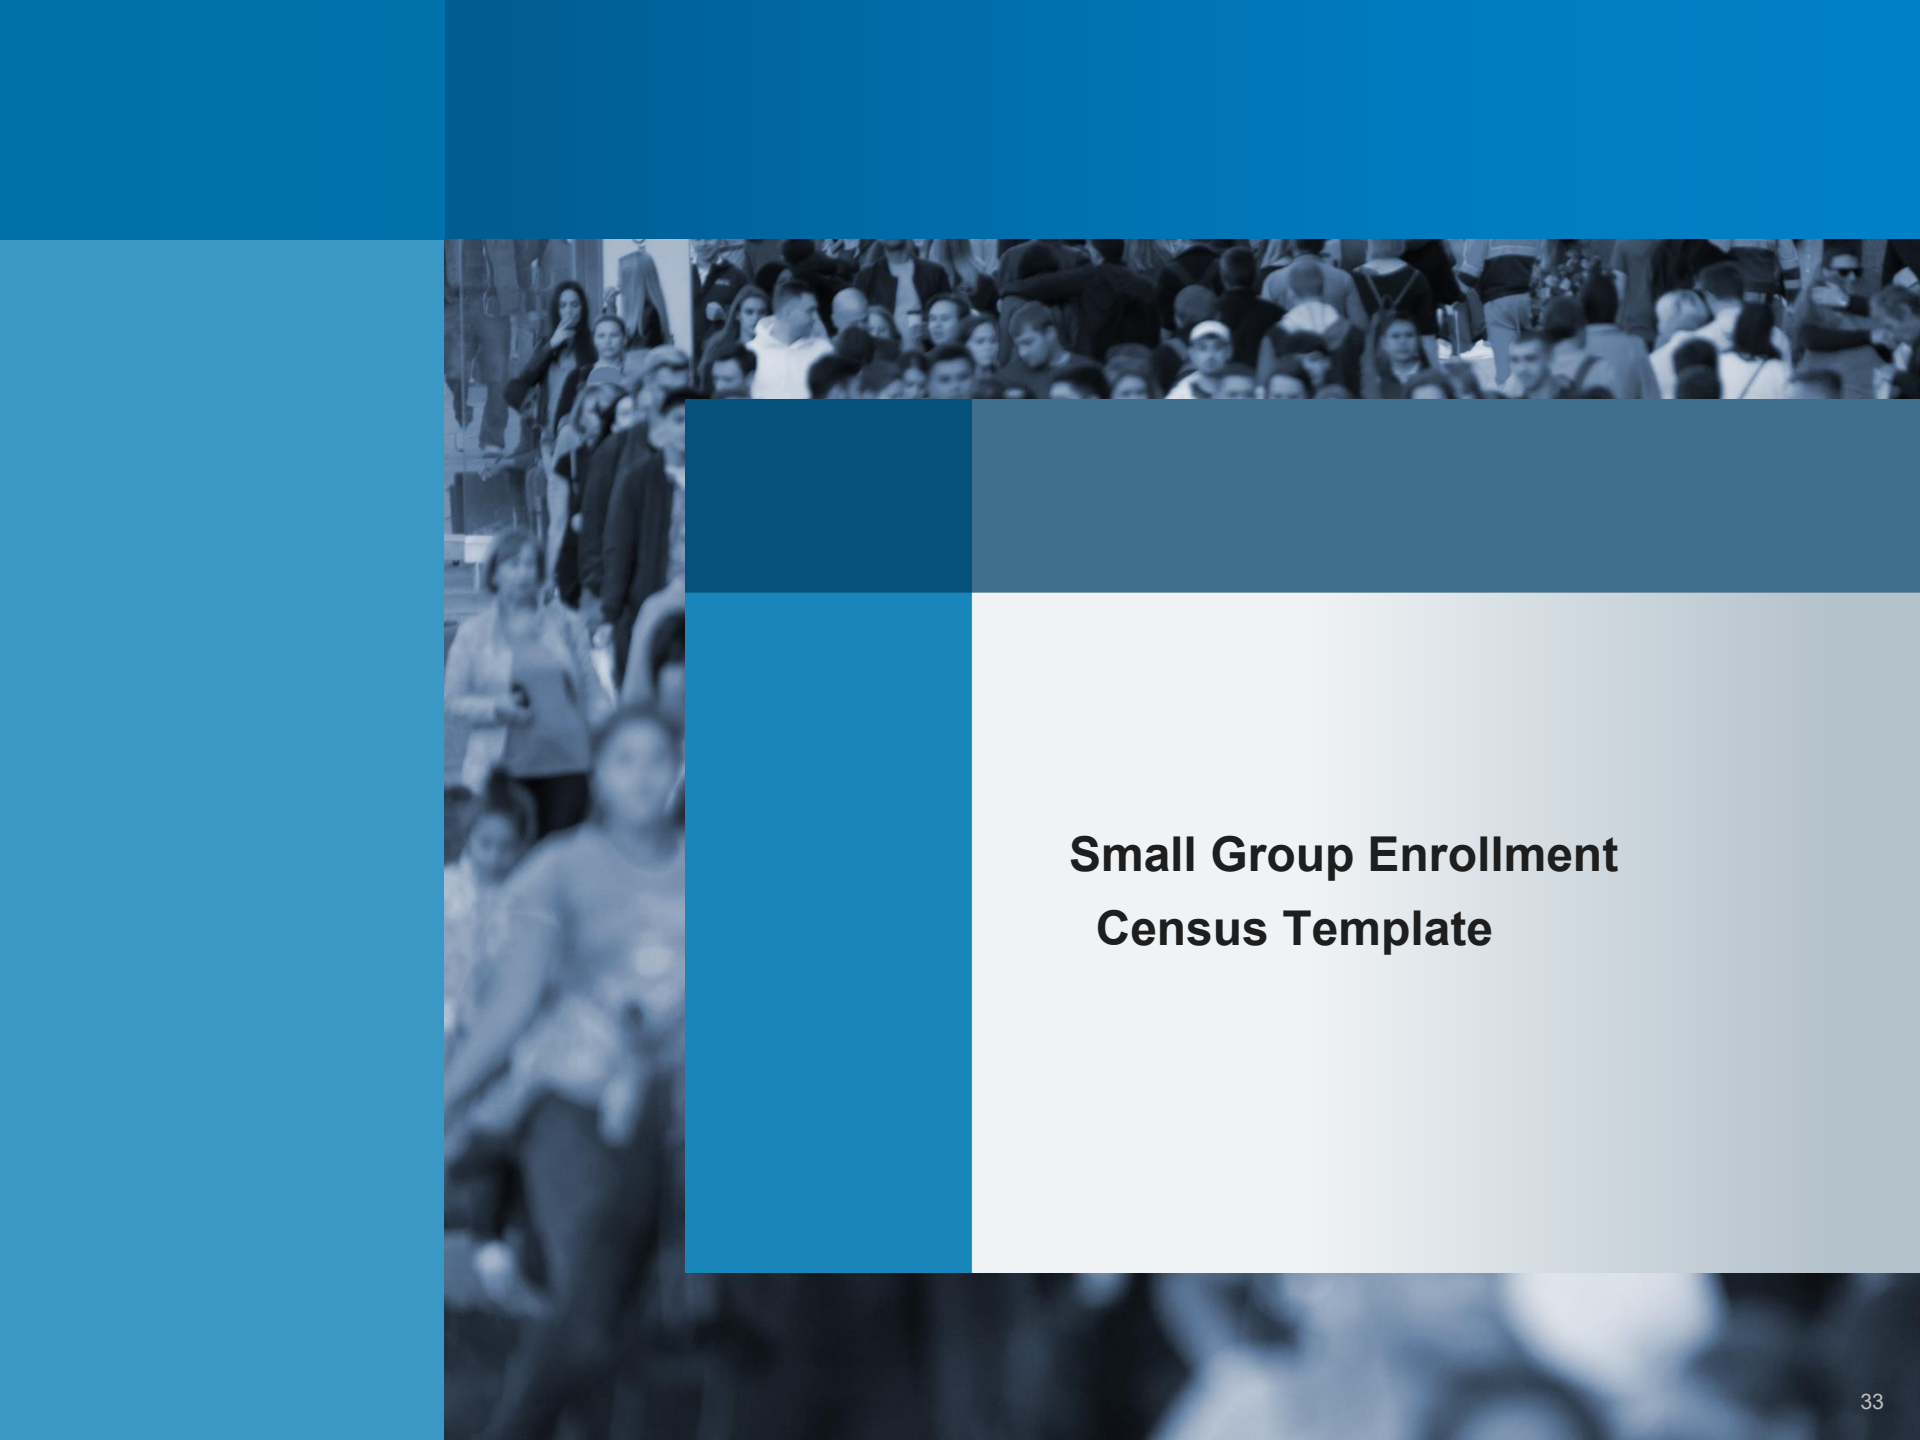

Last Name (Case Sensitive) ①	First Name (Case Sensitive) ①	Relationship Code ①	DOB (mm/dd/yyyy) ①	Gender (M or F) ①	Coverage Type (follow Help file instructions) ①	State (e.g. IL) ①	Annual Salary ①	Zip Code (only 5 digits) ①	Medicare Primary (Y, N or U) ①	Retiree (Y or N) ①	Life Class ①
Red	Rick	Employee	06/23/1973	M	ES	IL		60515	N	N	All Active Full Time
Red	Lynn	Spouse	07/03/1974	F				60515			
Yellow	Rick	Employee	08/22/1975	M	DC	IL		10001	N	N	All Active Full Time
Yellow	Lynn	Spouse	07/03/1974	F				60515			
Yellow								46117			
Blue						IL		01001	N	N	All Active Full Time

Data Validation is complete. No errors have been found.  
To generate extracts systematically, click the button next to the option needed.  
-- A separate file will be generated each time with date and time stamp and will be stored in the same folder as the census file.  
-- Once generated, the extract will be displayed in a separate excel window.

Last Name ①	First Name ①	Relationship Code ①	DOB (mm/dd/yyyy) ①	Gender (M or F) ①	Coverage Type (follow Help file instructions) ①	State (e.g. IL) ①	Annual Salary ①	Zip Code (only 5 digits) ①	Medicare Primary (Y, N or U) ①	Retiree (Y or N) ①	Life Class ①

- A. Coverage Type** For records that have a **DC** in the Coverage Type, when a file is created the Employee, Spouse and Dependent records will not be moved to the output file.

## **Small Group Enrollment Census Template**

# Open SCIT and Save Under Group Name

- A. From Excel menu, select **File > Open** and navigate to the folder where SCIT is saved, select SCIT and click **Open**.
- B. On **File > Open**, click **Enable Content** button. Skip this step if macros are enabled through **File > Options** menu. Please see “Enable Macros” in Technical References for instructions.
- C. In the pop-up box, type in the **Group Name** and click **OK**. Do not include spaces or any special characters.
- D. Select a **Folder** to save the Group’s Census, and click **OK**.
- E. The file is saved under the group’s name along with the date and time stamp.
  - Original SCIT file stays intact and is not overwritten.

## F. SCIT Setup Form will display.

- Select **Segment: SMALL GROUP OR MID MARKET**
- Select **Enrollment**
- Select a **Division** from dropdown list.

# Complete Setup Form

A

Step 1: Please Make a Selection

Market Segment: SMALL GROUP

Quoting or Enrollment: ENROLLMENT

Division: IL

Step 2: Enter Group Benefits Information

Has Group Selected Health? Y **A**

HMO Plan? N **B**

Plan 1:

Plan 2:

Plan 3:

Plan 4:

Plan 5:

Plan 6:

Has Group Selected Dental? Y **C**

Plan 1:

Plan 2:

Has Group Selected Life? Y **D**

Class Description

Is Salary Based **E**

Class 1 All Active Full Time N

Class 2 N

Complete the required fields highlighted in red.

**A. Has Group Selected Health?** Select Y or N, if Y, add Plan(s).

**B. HMO Plan?** Select Y or N - default N.

**NOTE:** If HMO is Y, PCP number is required for EPO plans.

**C. Has Group Selected Dental?** If Y, add Plan(s).

**NOTE on Plans:**

- When Plan codes are changed in **Setup Form**, the old codes will be highlighted in yellow in the **Import Census Template** tab.
- SCIT only validates the Plan code has been entered. It does not check against the **Small Group & Middle Market Enrollment Tool** to validate that an eligible Plan code has been entered.
- When Plan codes are changed in the **Setup Form**, the old codes will be highlighted in yellow in the **Import Census Template** tab.

**D. Has Group Selected Life?** If Y, add Class(es).

**E. Is Salary Based?** - Default N.

**Setup Form** values are used to:

- Display/hide Census columns in the **Import Census Template** tab.
- Display dropdown values for some columns based on **Division**.

**F** **Go To Census Template for Data Entry**

**Please Note:**

- Census template columns will display/hide based on selections made on this Setup Form.
- Returning to **this tab** hides **Census Template** tab and does not overwrite census data.
- If the Group has provided source census on a separate Excel file, click **Map Census** to copy source data into the census template.

**I** **Display All Census Columns**

**ATTENTION:**

- Please click this button for displaying all census columns **AFTER** census data has been entered.

Group Information **GrpInfoHelpFile**

# Mapping Enrollment Census

**A.** Click **Map** button if you have Census on a separate spreadsheet from the group.

**B.** Copy and paste Census information from the **Source** spreadsheet to this worksheet.

**NOTE:** Paste copied data as *VALUES* to avoid overwriting Excel formatting via *Paste Special*.

- There should only be one header row.
- Header row and data should not have merged cells.
- Make sure there are no blank rows OR columns in between the data.

**C.** **Source Census From The Group** worksheet (tab) displays along with an **Instructions** box.

**D.** Click **Yes** to proceed to the **Census Mapping** tab after pasting the **Source** Census.

**E.** Click **Cancel** to skip **Map Census** feature and go to the Census Template.

Click Green button for Census Data Entry

Go To Census Template for Data Entry

Map Census

Help Tab

Please Note:

- Census template columns will display/hide based on selections made on this Setup Form.
- Returning to [this tab](#) hides [Census Template tab](#) and does not overwrite census data.

Last Name	First Name	Relationship	Gender	Date of Birth	Type of Enrollment	State	Retiree	Annual Salary	Life
Smith	John	Employee	F	#####	EF	IL	N	960000	
Smith	Emily	Spouse	M	#####					
Smith	Rose	Dependent	F	#####					
Smith	Bob	Dependent	M	#####					
Van	Bob	Employee	M	#####	EO	IL	N	645854	

Instructions

1) Copy and paste the entire census from Group's spreadsheet in **Source Census From The Group** tab.  
--Make sure there is only 1 header row.  
--Header row and data should not have merged cells.  
--Make sure there are no blank rows/columns in between the data.

2) Click Yes to proceed to Census Mapping tab.  
-- Or Click Cancel to skip this step and go to Census Template tab.

If using mapping feature more than 1 time:  
a) Erase existing census on the **Source Census From The Group** tab.  
b) Repeat Steps 1 and 2 listed above.

Yes

Cancel

**NOTE:** If using mapping feature more than once:

- Delete the existing Census on the **Source Census From The Group** worksheet (tab).
- Repeat steps C and D listed above.

### Mapping Source Columns to Import Census Template Columns

Column A has column headers from the Import Census Template.  
 Helpful Hint: Click "+/-" to the left of row numbers to expand/collapse rows as needed.  
 Column B has a drop down list with values which are column headers from the source file.  
 Column C is for informational purpose only.

Steps for Mapping:

Copy Mapped Columns

Cancel

- 1) In **Column B**, select a value from the drop down list that corresponds to the value in **Column A**.  
**Note:** Import Template Columns with a drop down list are denoted by <sup>DDL</sup>.  
 If columns with DDL are mapped, the value on the source file must match the values in the drop down list.  
 On the Import Template, **File Save** data validation will erase values which do not match the drop down list.  
 If mapping multiple times, Column B values will be stored from previous time. Cells with values in Column B that do not match the Source Census Header will be highlighted in Yellow. Please update selection as needed for the current mapping.
- 2) Click **Copy Mapped Columns** button to copy the mapped source columns systematically to Import Census Template tab.
- 3) Click **Cancel** button to skip the mapping and go to Import Census Template tab to enter census.

## A. Census Mapping tab displays.

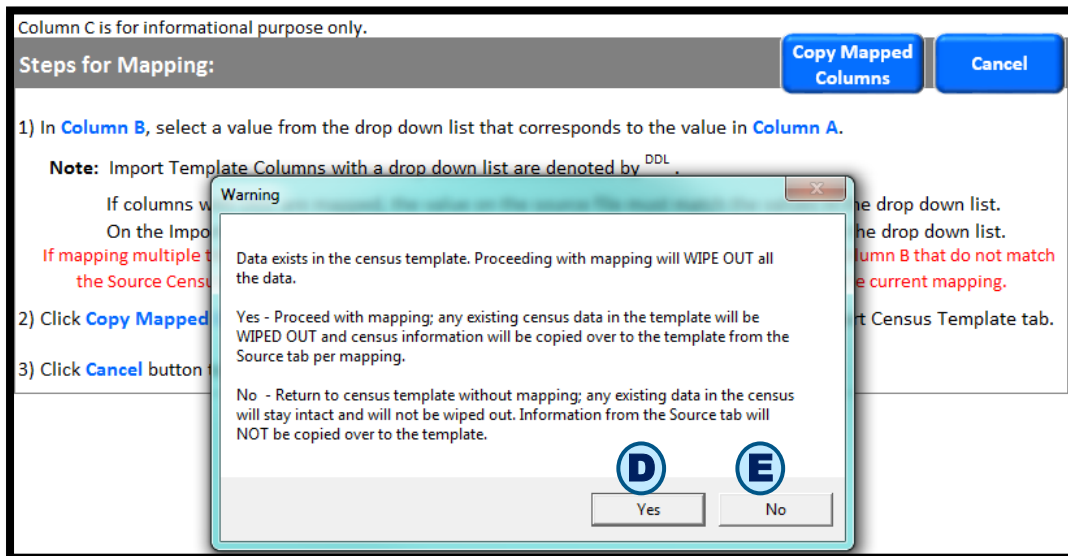

- **Column A** displays column headers from the **ACA Small Group / Mid Market Enrollment Import Census Template** Columns.
- **Column B** has a dropdown list with values which are column headers from the source file.
- **Column C** is for information purpose only.
- **Instructions** display to the right.

## B. In **Column B**, select a value from the dropdown list that corresponds to the value in **Column A**.

## C. Click the **Copy Mapped Columns** button to copy the mapped source columns systematically to the **Import Census Template** tab.

- Click the **Cancel** button to skip the mapping and go to **Import Census Template** tab to enter Census.

# Mapping Enrollment Census

**D.** Click **Yes** to proceed with mapping. If data exists on the Census Template, a **Warning** message displays.

**NOTE:** Any existing Census data in the Import Census Template will be WIPED OUT and the Census information will be copied over to the Template from the Source tab per mapping.

- Mapped data is systematically copied over to the **Import Census Template**.
- Complete Census entry as needed.

**E.** Click **No** to return to the **Import Census Template** without mapping. Existing data will not be overwritten and will remain unchanged.

# Enter Census Data

General Information										
Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	Name Suffix	Date Of Birth	Gender	SSN	
Employee										

Clicking the **Green button** on the **Setup Form** navigates to the **Import Census Template** tab.

- A.** Column **headers** are **Read Only**. Columns cannot be deleted or moved.
- B.** Columns display/hide, and some dropdown list values, are determined by **Setup Form** values. See “Table 1” in Technical References for details.
- C.** Row #3 **Relationship Code** value is defaulted to **Employee**.  
*Do not change this value.*
- D.** Starting from Row #3, rows can be Inserted or Deleted as needed.

# Enter Census Data

- E. **Zip code** is required for all **Employees**. If source file has **extended Zip Codes**, paste in SCIT “as is”. These values will be highlighted in **yellow** and on **File > Save** validation, only the first 5 numbers of the **Zip Code** will be saved.

Address 1	Address 2	City	State	Zip Code
			<b>AUTO FILL</b> <b>State from zip</b>	

- F. After entering in **Zip Code**, click the **State from Zip** button in State cell to populate the **State** for all members. State will fill in if there is no State code already.
- G. The entire cell is highlighted in **red** for required columns. The entire cell is highlighted in **yellow** when there is a data mismatch. For **DOB** column over-age dependents (26 & over), the cells are highlighted in **purple** and 65 & over entries are highlighted in **green** for information purposes.
- H. When you type in a value and click **Enter**:
- 1) If the value is invalid, an error message displays with **Retry**, **Cancel** and **Help** buttons.
  - 2) **Retry** returns you to the typed-in value for editing and **Cancel** wipes out the typed-in value and returns you to the cell.
- I. **Help** icons and **AutoFill** buttons are available in the column headers.

# Enter Census Data - Speed Jumps and Medicare

- A. **Speed Jump** – quickly jump to sections of SCIT

General Info  **Emp Status** Health Cov Signature Date Language

- B. **Zip, State and Marital Status** - allowed for Spouse and Dependents.

Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	AUTO FILL State from zip	Zip Code	Home/Cell Phone	Business Phone	Email Address	Marital Status
											
Employee	N		John		Doe	IL	60515				Married
Spouse			Jane		Doe	IL	60515				
Disabled Dependent			Peter		Doe	IL	60515				

- C. **Medicare Eligible** – when Medicare Eligible is selected the Medicare HIC Number, Medicare Reason and Medicare Primary or Secondary are mandatory.

Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	Medicare Eligible	Medicare HIC Number	Medicare Reason	Medicare Primary or Secondary	Plan A Start Date	Plan A End Date	Plan B Start Date	Plan B End Date
													
Employee	N		John		Doe	Y							
Spouse			Jane		Doe	Y							
Disabled Dependent			Peter		Doe	N							

# Enter Census Data

- For **Employment Status** and **Medicare Eligible** columns, the cell value drives the display/hide behavior of the corresponding dependent data columns.
  - When you enter **COBRA** as the value in the **Employment Status** cell, additional **COBRA** columns will become available for completion. Similarly, entering **IL Cont** as the value will cause **IL Continuee** columns to display for completion.
  - A value of **Y** in the **Medicare Eligible** cell will cause **Medicare** columns to display. See “Table 2” in Technical References.
- Returning to the **Group Information** tab hides other tabs: **Import Census Template** tab, **Error List** tab and **Help File** tab.
  - To return to, and display the **Import Census Template** tab, click the **Green button**.
  - To return to, and display the **Error List** tab, click **Green button** and click **File > Save**.
  - To return to, and display the **Help File** tab, click the **Help File** tab.
- **SSN dashes**
  - If the source **SSN** value has dashes, paste into SCIT “as is”. These values will be highlighted in **yellow**. On **File > Save** validation, dashes will be removed systematically.
- **Date values**
  - While typing dates include “/”
  - If the **date** format in the source file is formatted with a different date format than MM/DD/YYYY, you can still copy and paste it into SCIT “as is”. The date will be reformatted systematically to MM/DD/YYYY when you click **File > Save**.
- **Text values**
  - If source values are longer than the expected length, they are truncated systematically when you click **File > Save**.
- Values can be copied and pasted as needed onto the Census columns.

**NOTE:** *Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.*

  - If copying data from an external source, please make sure that the source column format matches the format of the corresponding **Import Census Template** column.
  - If copy/pasting data from an external source causes cells to lock in SCIT, click **File > Save** to unlock the cells.

# Enter Census Data for FSA and HRA

FSA		
<b>A</b> FSA Plan <i>i</i>	FSA Employee Election Amount <i>i</i>	FSA Employer Contribution Amount <i>i</i>
	<b>C</b>	<b>D</b>

- A.** Column **headers** are **Read Only**. Columns cannot be deleted or moved.
- B.** Columns display/hide, and some drop-down list values, are determined by **Setup Form** values.
- C.** FSA **Employee Election Amount** is required if FSA Plan selected.
- D.** FSA **Employer Contribution Amount** is optional.

- The entire cell is highlighted in **red** for required columns. The entire cell is highlighted in **yellow** when there is a data mismatch.
- When you type in a value and click **Enter**:
  - If the value is invalid, an error message displays with **Retry**, **Cancel** and **Help** buttons.
  - **Retry** returns you to the typed-in value for editing and **Cancel** wipes out the typed-in value and returns you to the cell.
- Values can be copied and pasted as needed onto the Census columns.
  - **NOTE:** *Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.*
  - If copying data from an external source, please make sure that the source column format matches the format of the corresponding **Import Census Template** column.
  - If copy/pasting data from an external source causes cells to lock in SCIT, click **File > Save** to unlock the cells.
- **Help** icons are available below the header name of each column. Clicking **Help** icon will move the cursor to that exact Column in the **Enrollment Help File** tab. Field requirements are listed in this section.

# Enter Census Data for Language, Race and Ethnicity

Language			Ethnicity	Race				
<b>A</b>	<b>B</b>	<b>C</b>	<b>D</b>	<b>E</b>				
Native Language	Spoken	Written	Ethnicity	Race 1	Race 2	Race 3	Race 4	Race 5

- A. Native Language** is a mandatory field. The user can select a language from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UND (undetermined) upon validation.
- B. Spoken Language** is a mandatory field. The user can select a language from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UND (undetermined) upon validation.
- C. Written Language** is a mandatory field. The user can select a language from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UND (undetermined) upon validation.

- D. Ethnicity** is a mandatory field. The user can select an Ethnicity from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UNK (unknown) upon validation.
- E. Race** is a mandatory field. The user can select a Race from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UNK (unknown) upon validation.

**NOTE:** *Race 1 field is mandatory. Additional Races can be added to Race 2 through Race 5 fields.*

# Enter Census Data (New Ancillary Fields)

CD	CE	CF	CG	CH	CI
Standalone Vision		Critical Illness		Accident Insurance	
Standalone Vision Coverage (Y/N)	<b>AUTO FILL</b> Standalone Vision Coverage Type	Critical Ill Coverage (Y/N)	<b>AUTO FILL</b> Critical Ill Coverage Type	Accident Ins Coverage (Y/N)	<b>AUTO FILL</b> Accident Ins Coverage Type
	<b>A</b>		<b>B</b>		<b>C</b>

- A. Standalone Vision:** These two columns are displayed when **Employee Status** is either **Active** or **COBRA** for all Divisions. They are also displayed for IL when **Employee Status** is **Retired** or **IL Cont.** They are also displayed for TX when **Employee Status** is **TX Cont** or **TX Dependent Cont.**
- B. Critical Illness:** These two columns are displayed when the **Employee Status** is **Active** for all Divisions. If **Critical Illness Coverage** is set to **Y**, then either **Standalone Vision** or **Accident Insurance** must also be **Y**; otherwise, the two **N** cells are highlighted **red**. If data is entered and the **Employee Status** is **not Active**, the cells are highlighted **yellow**. The data will be removed once the user clicks the **Save** button (validation).
- C. Accident Insurance:** These two columns are displayed when the **Employee Status** is **Active** for all Divisions. If **Accident Insurance** is set to **Y**, then either **Standalone Vision** or **Accident Insurance** must also be **Y**; otherwise, the two **N** cells are highlighted **red**. If data is entered and the **Employee Status** is **not Active**, the cells are highlighted **yellow**. The data will be removed once the user clicks the **Save** button (validation).

# Enter Census Data

Term Life								
<b>A</b> Life Ins Coverage (Y/N) 	<b>B</b> Employee Basic Life 	<b>C</b> Dependent Basic Life (Y/N) 	<b>D</b> Spouse Dependent Basic Life 	<b>E</b> Child Dependent Basic Life 	<b>F</b> Supplemental Life (Y/N) 	<b>G</b> Employee Supplemental Life 	<b>H</b> Spouse Supplemental Life 	<b>I</b> Child Supplemental Life 

- A. Life Ins Coverage (Y/N):** Does this Employee have Life. If “Y”, then **B** thru **I** can be filled, otherwise no data allowed in **B** thru **I**.
- B. Employee Basic Life:** This will have drop down values from the Group Information Tab. If the class selected is **Salary Based**, then Salary is mandatory
- C. Dependent Basic Life (Y/N):** Does the Spouse/Child have Dependent Life. If “Y”, then either Spouse or Child must have a value.
- D. Spouse Dependent Basic Life:** Dropdown of **No Coverage** and **\$10,000**.
- E. Child Dependent Basic Life:** Dropdown of **No Coverage** and **\$5,000**.
- F. Supplemental Life (Y/N):** Does the Employee/Spouse/Child have Supplemental Life. If “Y”, then Employee must have a value.
- G. Employee Supplemental Life:** Dropdown of **\$10,000** to **\$500,000**.
- H. Spouse Supplemental Life:** Dropdown of **No Coverage** to **\$150,000**. Spouse’s amount can not be over 50% of the Employee amount.
- I. Child Supplemental Life:** Dropdown of **No Coverage** and **\$10,000**.

# Enter Census Data (STD and LTD)

STD		LTD		Salary
<b>A</b> Short Term Disability (Y/N) 	<b>B</b> Short Term Disability 	<b>C</b> Long Term Disability (Y/N) 	<b>D</b> Long Term Disability 	<b>E</b> Employee Salary 

- A. Short Term Disability (Y/N):** Does the user have Short Term Disability (Y/N).
- B. Short Term Disability :** If previous field is “Y” then select from the drop down one of the classes entered on the Group Information Tab.
- C. Long Term Disability (Y/N):** Does the user have Long Term Disability (Y/N).
- D. Long Term Disability :** If previous field is “Y” then select from the drop down one of the classes entered on the Group Information Tab.
- E. Employee Salary:** If Employee Basic Life selected class **Is Salary Based** and/or STD and/or LTD is selected then Salary is mandatory.

# Data Validation

Once data entry is complete, click **File > Save** to validate the Census data. A **pop-up box** will display: **Is data entry completed for this Census?** with **Yes** and **No** buttons.

- A. Click **No** if you want to save existing data and return to complete the Census entry later.

**NOTE:** *Validation rules do not run.*

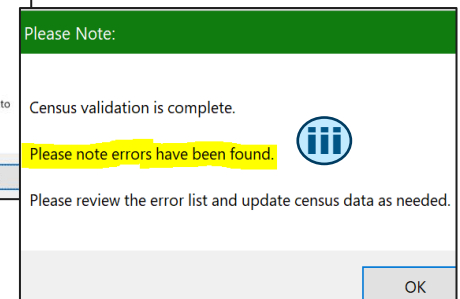

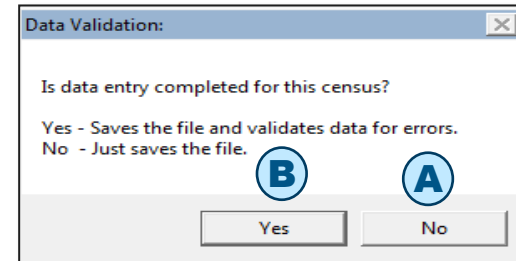

- B. Click **Yes** if Census entries are complete. Existing data is saved. If values are blank in columns where the **AutoFill** feature is available, a default value will be entered systematically. Final validation rules will run.

- i. **Validation In Progress** indicators will display:

- Excel Status bar (bottom left corner)
- Validation in Progress pop-up box

- ii. **If no errors are found**, confirmation box displays and completed Census can be processed per current business process.

- iii. **If there are any errors**, a message box displays indicating that errors have been found. Click **OK**.

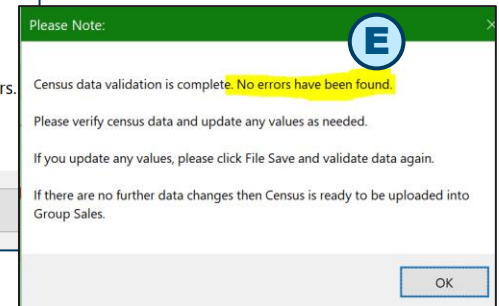

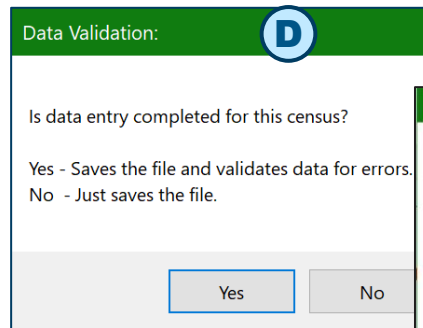

# Data Validation Error List

- A.** If there are data errors, the **Error List** tab will display:
- **In Cell** column – specifies the cell location of the error.
  - **Error Description** column – specifies the column and the nature of the error.
- B.** To update the values, click the **Import Census Template** tab. Change the values as needed. You can toggle between the **Error List** and **Import Census Template** tabs.
- C.** Once you have corrected any errors, validate data again by clicking **File > Save**.
- D.** Select **Yes** in the **Is data entry completed for this census?** message box.
- E.** If no errors are found, a confirmation box displays and completed Census can be processed per current business process.

In Cell	Error Description
C7	Relationship Code is required.
D8	Gender is required for Employee, Spouse and Dependent(s).
E8	Date of Birth is required for Employee, Spouse and Dependent(s).
C9	Relationship Code is required.
D10	Gender is required for Employee, Spouse and Dependent(s).
E10	Date of Birth is required for Employee, Spouse and Dependent(s).
D11	Gender is required for Employee, Spouse and Dependent(s).
E11	Date of Birth is required for Employee, Spouse and Dependent(s).
D12	Gender is required for Employee, Spouse and Dependent(s).
E12	Date of Birth is required for Employee, Spouse and Dependent(s).
C13	Relationship Code is required.
D14	Gender is required for Employee, Spouse and Dependent(s).
E14	Date of Birth is required for Employee, Spouse and Dependent(s).

# On Successful Validation, Upload SCIT into Small Group & Middle Market Enrollment Tool

The screenshot shows the 'Member Census' page in the Small Group & Middle Market Enrollment Tool. The page has a navigation bar with tabs: Account Information, Additional Information, Plan Selections, Member Census (active), Rates, Account Summary, and Release for Enrollment. Below the navigation bar, there's a 'Member Census' section with a 'Previous' button and a 'Continue' button. A red arrow points to the 'Import Census' button, which is circled in blue and labeled 'B'. Below this, there's an 'Import Census' dialog box. It contains instructions on how to save the import template and a list of steps. A blue circle 'F' is next to step 4. Below the instructions, there's a 'Select File to upload:' field with a file path and a 'Browse...' button, circled in blue and labeled 'C'. Below this, there's a radio button selection for 'Overwrite' (selected) and 'Append'. A blue circle 'G' is next to the 'Overwrite' option. To the right of the dialog, there's a 'Load File' button, circled in blue and labeled 'H'. A blue circle 'D' is next to the 'Import Census' button.

In SCIT, once Census data is validated and no errors are found, the Census is ready to be uploaded into **Small Group & Middle Market Enrollment Tool**.

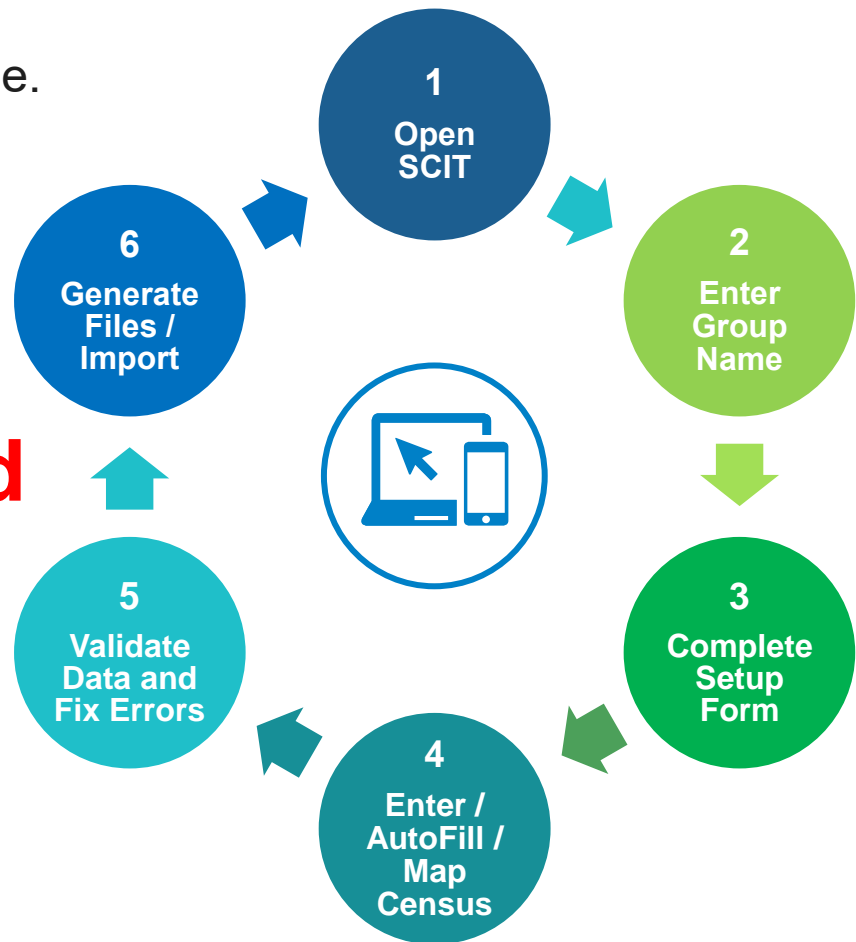

## The upload steps have not changed.

- A. In the **Small Group & Middle Market Enrollment Tool**, navigate to the Group's **Member Census** page.
- B. Click the **Import Census** button.
- C. When the **Import Census** pops up, click **Browse**.
- D. Navigate to the folder that has SCIT with the group's filename.
- E. Select the file and click **Open**.
- F. Filename displays in the **Select File to upload** box.
- G. **Overwrite** existing Census information is selected by default. If needed, select **Append** radio button to add to existing Census information.
- H. Click the **Load File** button.

# Enter Census for the Next Group

To enter Census for the next group,  
**File Close** prior group's open SCIT file.  
Repeat Steps 1 through 6.

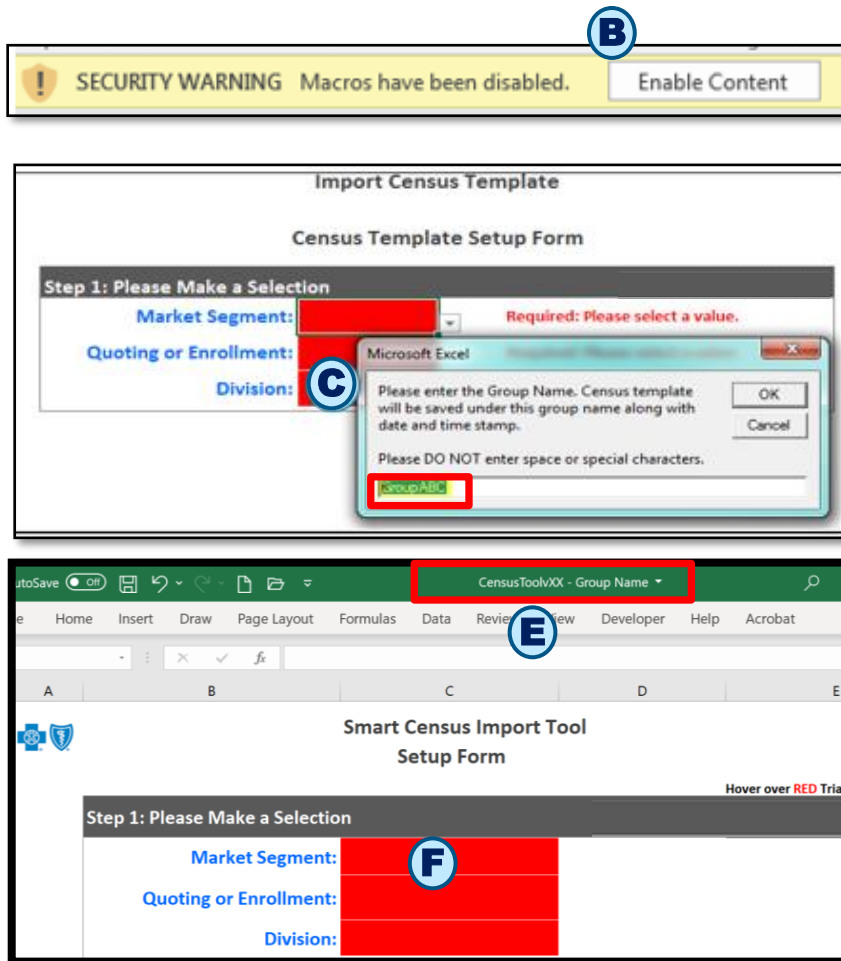

**Change step 6 for  
enrollment. No need  
to generate file –  
save then import.**

## **Middle Market Enrollment Census Template**

# Open SCIT and Save Under Group Name

- A. From Excel menu, select **File > Open** and navigate to the folder where SCIT is saved, select SCIT and click **Open**.
- B. On **File > Open**, click **Enable Content** button. Skip this step if macros are enabled through **File > Options** menu. Please see “Enable Macros” in Technical References for instructions.
- C. In the pop-up box, type in the **Group Name** and click **OK**. Do not include spaces or any special characters.
- D. Select a **Folder** to save the Group’s Census, and click **OK**.
- E. The file is saved under the group’s name along with the date and time stamp.
  - Original SCIT file stays intact and is not overwritten.
- F. **SCIT Setup Form** will display.
  - Select **Segment: SMALL GROUP OR MID MARKET**
  - Select **Enrollment**
  - Select a **Division** from dropdown list.

# Complete Setup Form

Market Segment: MID MARKET	
Quoting or Enrollment: ENROLLMENT	
Division: IL	
<b>Step 2: Enter Group Benefits Information</b>	
Has Group Selected Health? Y	<b>A</b>
HMO Plan? N	<b>B</b>
Plan 1:	
Plan 2:	
Plan 3:	
Plan 4:	
Plan 5:	
Plan 6:	
Has Group Selected Dental? Y	<b>C</b>
Plan 1:	
Plan 2:	
Has Group Selected Life? Y	<b>D</b>
Selected Integrated FSA? Y	<b>E</b>
Plan 1:	
Plan 2:	
Selected Integrated HRA? Y	<b>F</b>
Plan 1:	
Plan 2:	
Plan 3:	

Complete the required fields highlighted in red.

- A. Has Group Selected Health?** Select Y or N, if Y, add Plan(s).
- B. HMO Plan?** Select Y or N - default N.  
**NOTE:** If HMO is Y, PCP number is required for EPO plans.
- C. Has Group Selected Dental?** If Y, add Plan(s).

## NOTE on Plans:

- When Plan codes are changed in **Setup Form**, the old codes will be highlighted in yellow in the **Import Census Template** tab.
- SCIT only validates the Plan code has been entered. It does not check against the **Small Group & Middle Market Enrollment Tool** to validate that an eligible Plan code has been entered.
- When Plan codes are changed in the **Setup Form**, the old codes will be highlighted in yellow in the **Import Census Template** tab.

- D. Has Group Selected Life?**
- E. Selected Integrated FSA?** If Y, add Plan(s).
- F. Selected Integrated HRA?** If Y, add Plan(s).

**Setup Form** values are used to:

- Display/hide Census columns in the **Import Census Template** tab.
- Display dropdown values for some columns based on **Division**.

# Complete Setup Form

- F.** Click the **Green button** to navigate to the **Import Census Template** for manual data entry.
- G.** Click **Map** button if you received the Census from the group on a separate spreadsheet (Source).
- This feature will enable you to copy and map the Source columns to the Template columns. After columns are mapped, data will be copied over to the **Import Census Template** systematically per the mapping.
- H.** Click the **Help Tab** button to navigate to the **GrpInfoHelpFile** tab. This tab has detailed specifications for all the entries on the **Group Information** tab.
- I.** Click **Blue button** to display all Census columns on the **Import Census Template**.

Selected Integrated FSA? Y

Plan 1:  
Plan 2:

Click Green button for Census Data Entry

**F**  
Go To Census Template for Data Entry

**Please Note:**

- Census template columns will display/hide based on selections made on this Setup Form.
- Returning to **this tab** hides **Census Template** tab and does not overwrite census data.
- If the Group has provided source census on a separate Excel file, click **Map Census** to copy source data into the census template.

**I**  
Display All Census Columns

**ATTENTION:**

- Please click this button for displaying all census columns **AFTER** census data has been entered.

Group Information

**GrpInfoHelpFile**

# Mapping Enrollment Census

- A. Click **Map** button if you have Census on a separate spreadsheet from the group.
- B. **Source Census From The Group** worksheet (tab) displays along with an **Instructions** box.
- C. Copy and paste Census information from the **Source** spreadsheet to this worksheet.

**NOTE:** Paste copied data as **VALUES** to avoid overwriting Excel formatting via **Paste Special**.

- There should only be one header row.
- Header row and data should not have merged cells.
- Make sure there are no blank rows OR columns in between the data.

- D. Click **Yes** to proceed to the **Census Mapping** tab after pasting the **Source** Census.
- E. Click **Cancel** to skip **Map Census** feature and go to the Census Template.

The screenshot shows the SCIT interface with a 'Map' button (A) and a 'Help Tab' button. A green button labeled 'Go To Census Template for Data Entry' is also visible. Below the buttons is a table with the following data:

Last Name	First Name	Relationship	Gender	Date of Birth	Type of Enrollment	State	Retiree	Annual Salary	Life
Smith	John	Employee	F	#####	EF	IL	N	960000	
Smith	Emily	Spouse	M	#####					
Smith	Rose	Dependent	F	#####					
Smith	Jack	Dependent	M	#####					
Van	E	Employee	M	#####	EO	IL	N	645854	

An 'Instructions' dialog box (B) is open, containing the following text:

1) Copy and paste the entire census from Group's spreadsheet in Source Census From The Group tab.  
 --Make sure there is only 1 header row.  
 --Header row and data should not have merged cells.  
 --Make sure there are no blank rows/columns in between the data.

2) Click Yes to proceed to Census Mapping tab.  
 -- Or Click Cancel to skip this step and go to Census Template tab.

If using mapping feature more than 1 time:  
 a) Erase existing census on the Source Census From The Group tab.  
 b) Repeat Steps 1 and 2 listed above.

The dialog box has 'Yes' and 'Cancel' buttons. A 'D' label is next to the 'Yes' button and an 'E' label is next to the 'Cancel' button.

- NOTE:** If using mapping feature more than once:
- Delete the existing Census on the **Source Census From The Group** worksheet (tab).
  - Repeat steps C and D listed above.

# Mapping Enrollment Census

**A**

ACA Small Group Enrollment Import Census Template Columns	Map Group's Source Census Columns (Select from drop down list)	Source Census Column Letter (for information Only)
<b>Group Information Columns</b>		
Relationship Code <sup>DDL</sup>	Relationship	D
Waive All Coverage <sup>DDL</sup>	waive Coverage	E
Waive Reason Code <sup>DDL</sup>	Waive Reson	F
First Name	First Name	C
Mid Init	Middle Initial	B
Last Name	Last Name	A
Name Suffix		
Date Of Birth	Date Of Birth	H
Gender <sup>DDL</sup>	Gender	G
SSN	SSN	I
Address 1	Home Address	J

**B**

**C**

**Mapping Source Columns to Import Census Template Columns**

Column A has column headers from the Import Census Template.  
 Helpful Hint: Click "+/-" to the left of row numbers to expand/collapse rows as needed.  
 Column B has a drop down list with values which are column headers from the source file.  
 Column C is for informational purpose only.

**Steps for Mapping:**

- 1) In **Column B**, select a value from the drop down list that corresponds to the value in **Column A**.  
**Note:** Import Template Columns with a drop down list are denoted by <sup>DDL</sup>.  
 If columns with DDL are mapped, the value on the source file must match the values in the drop down list.  
 On the Import Template, **File Save** data validation will erase values which do not match the drop down list.  
 If mapping multiple times, Column B values will be stored from previous time. Cells with values in Column B that do not match the Source Census Header will be highlighted in Yellow. Please update selection as needed for the current mapping.
- 2) Click **Copy Mapped Columns** button to copy the mapped source columns systematically to Import Census Template tab.
- 3) Click **Cancel** button to skip the mapping and go to Import Census Template tab to enter census.

**Copy Mapped Columns** **Cancel**

## A. Census Mapping tab displays.

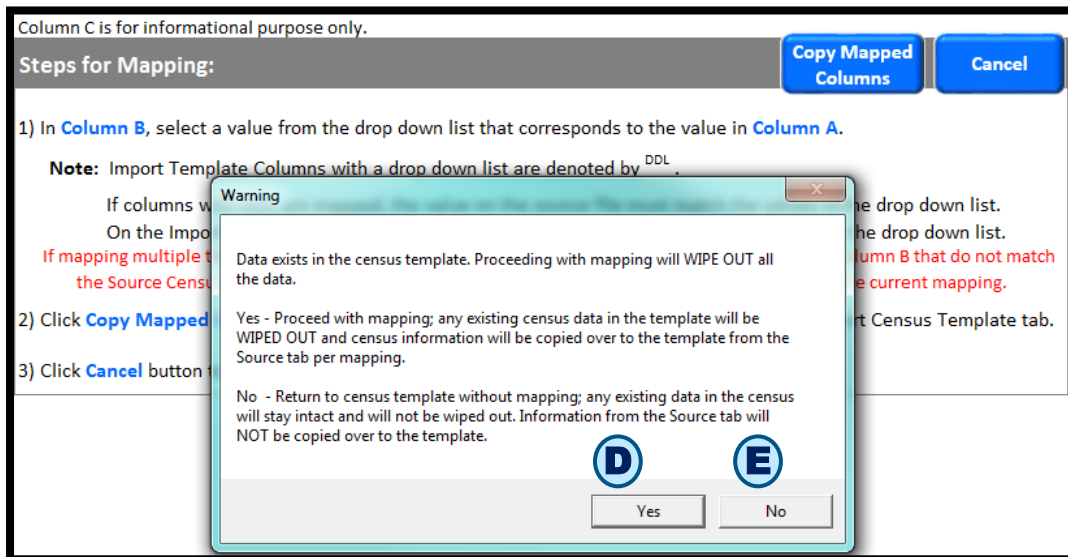

- **Column A** displays column headers from the **ACA Small Group / Mid Market Enrollment Import Census Template** Columns.
- **Column B** has a dropdown list with values which are column headers from the source file.
- **Column C** is for information purpose only.
- **Instructions** display to the right.

## B. In **Column B**, select a value from the dropdown list that corresponds to the value in **Column A**.

## C. Click the **Copy Mapped Columns** button to copy the mapped source columns systematically to the **Import Census Template** tab.

- Click the **Cancel** button to skip the mapping and go to **Import Census Template** tab to enter Census.

# Mapping Enrollment Census

- D.** Click **Yes** to proceed with mapping. If data exists on the Census Template, a **Warning** message displays.

**NOTE:** Any existing Census data in the Import Census Template will be WIPED OUT and the Census information will be copied over to the Template from the Source tab per mapping.

- Mapped data is systematically copied over to the **Import Census Template**.
- Complete Census entry as needed.

- E.** Click **No** to return to the **Import Census Template** without mapping. Existing data will not be overwritten and will remain unchanged.

# Enter Census Data

General Information										
Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	Name Suffix	Date Of Birth	Gender	SSN	
Employee										

Clicking the **Green button** on the **Setup Form** navigates to the **Import Census Template** tab.

- A.** Column **headers** are **Read Only**. Columns cannot be deleted or moved.
- B.** Columns display/hide, and some dropdown list values, are determined by **Setup Form** values. See “Table 1” in Technical References for details.
- C.** Row #3 **Relationship Code** value is defaulted to **Employee**.  
*Do not change this value.*
- D.** **Starting from Row #3**, rows can be Inserted or Deleted as needed.

# Enter Census Data

- E. **Zip code** is required for all **Employees**. If source file has **extended Zip Codes**, paste in SCIT “as is”. These values will be highlighted in **yellow** and on **File > Save** validation, only the first 5 numbers of the **Zip Code** will be saved.

The screenshot shows a data entry table with the following columns: Address 1, Address 2, City, State, and Zip Code. Each column header has an information icon (i). The State column header also contains an 'AUTO FILL' button and a 'State from zip' button. Annotations include: a blue circle 'I' with an arrow pointing to the Address 1 header; a blue circle 'F' above the State header; a blue circle 'E' above the Zip Code header; and a blue circle 'G' with an arrow pointing to a yellow-highlighted cell in the City column of a data row. Below the City header, there is a red-highlighted cell and a yellow-highlighted cell in the same column.

- F. After entering in **Zip Code**, click the **State from Zip** button in State cell to populate the **State** for all members. State will fill in if there is no State code already.
- G. The entire cell is highlighted in **red** for required columns. The entire cell is highlighted in **yellow** when there is a data mismatch. For **DOB** column over-age dependents (26 & over), the cells are highlighted in **purple** and 65 & over entries are highlighted in **green** for information purposes.
- H. When you type in a value and click **Enter**:
- 1) If the value is invalid, an error message displays with **Retry**, **Cancel** and **Help** buttons.
  - 2) **Retry** returns you to the typed-in value for editing and **Cancel** wipes out the typed-in value and returns you to the cell.
- I. **Help** icons and **AutoFill** buttons are available in the column headers.

# Enter Census Data - Speed Jumps and Medicare

- A. **Speed Jump** – quickly jump to sections of SCIT

**General Info**  **Emp Status** **Health Cov** **Signature Date** **Language**

**A**

- B. **Zip, State and Marital Status** - allowed for Spouse and Dependents.

Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	AUTO FILL State from zip	Zip Code	Home/Cell Phone	Business Phone	Email Address	Marital Status
											
Employee	N		John		Doe	IL	60515				Married
Spouse			Jane		Doe	IL	60515				
Disabled Dependent			Peter		Doe	IL	60515				

- C. **Medicare Eligible** – when Medicare Eligible is selected the Medicare HIC Number, Medicare Reason and Medicare Primary or Secondary are mandatory.

Relationship Code	Waive All Coverage	Waive Reason Code	First Name	Mid Init	Last Name	Medicare Eligible	Medicare HIC Number	Medicare Reason	Medicare Primary or Secondary	Plan A Start Date	Plan A End Date	Plan B Start Date	Plan B End Date
													
Employee	N		John		Doe	Y							
Spouse			Jane		Doe	Y							
Disabled Dependent			Peter		Doe	N							

# Enter Census Data

- For **Employment Status** and **Medicare Eligible** columns, the cell value drives the display/hide behavior of the corresponding dependent data columns.
  - When you enter **COBRA** as the value in the **Employment Status** cell, additional **COBRA** columns will become available for completion. Similarly, entering **IL Cont** as the value will cause **IL Continuee** columns to display for completion.
  - A value of **Y** in the **Medicare Eligible** cell will cause **Medicare** columns to display. See “Table 2” in Technical References.
- Returning to the **Group Information** tab hides other tabs: **Import Census Template** tab, **Error List** tab and **Help File** tab.
  - To return to, and display the **Import Census Template** tab, click the **Green button**.
  - To return to, and display the **Error List** tab, click **Green button** and click **File > Save**.
  - To return to, and display the **Help File** tab, click the **Help File** tab.
- **SSN dashes**
  - If the source **SSN** value has dashes, paste into SCIT “as is”. These values will be highlighted in **yellow**. On **File > Save** validation, dashes will be removed systematically.
- **Date values**
  - While typing dates include “/”
  - If the **date** format in the source file is formatted with a different date format than MM/DD/YYYY, you can still copy and paste it into SCIT “as is”. The date will be reformatted systematically to MM/DD/YYYY when you click **File > Save**.
- **Text values**
  - If source values are longer than the expected length, they are truncated systematically when you click **File > Save**.
- Values can be copied and pasted as needed onto the Census columns.

**NOTE:** *Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.*

  - If copying data from an external source, please make sure that the source column format matches the format of the corresponding **Import Census Template** column.
  - If copy/pasting data from an external source causes cells to lock in SCIT, click **File > Save** to unlock the cells.

# Enter Census Data for FSA and HRA

FSA			HRA
A	C	D	E
FSA Plan	FSA Employee Election Amount	FSA Employer Contribution Amount	HRA Plan
i	i	i	i

- A.** Column **headers** are **Read Only**. Columns cannot be deleted or moved.
- B.** Columns display/hide, and some drop-down list values, are determined by **Setup Form** values.
- C.** FSA **Employee Election Amount** is required if FSA Plan selected.
- D.** FSA **Employer Contribution Amount** is optional.
- E.** **HRA Plan** column will display only for Middle Market.

- The entire cell is highlighted in **red** for required columns. The entire cell is highlighted in **yellow** when there is a data mismatch.
- When you type in a value and click **Enter**:
  - If the value is invalid, an error message displays with **Retry**, **Cancel** and **Help** buttons.
  - **Retry** returns you to the typed-in value for editing and **Cancel** wipes out the typed-in value and returns you to the cell.
- Values can be copied and pasted as needed onto the Census columns.
  - **NOTE:** *Paste copied data as VALUES to avoid overwriting Excel formatting via Paste Special.*
  - If copying data from an external source, please make sure that the source column format matches the format of the corresponding **Import Census Template** column.
  - If copy/pasting data from an external source causes cells to lock in SCIT, click **File > Save** to unlock the cells.
- **Help** icons are available below the header name of each column. Clicking **Help** icon will move the cursor to that exact Column in the **Enrollment Help File** tab. Field requirements are listed in this section.

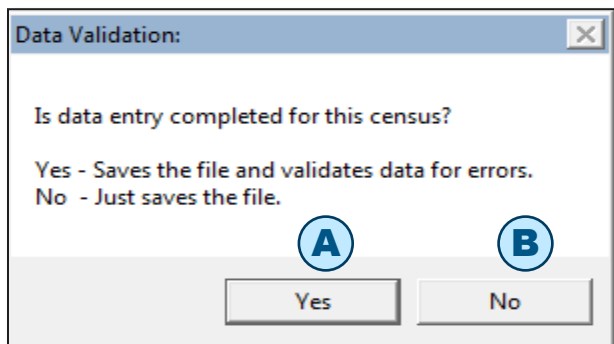

# Enter Census Data for Language, Race and Ethnicity

Language			Ethnicity	Race				
<b>A</b>	<b>B</b>	<b>C</b>	<b>D</b>	<b>E</b>				
Native Language	Spoken	Written	Ethnicity	Race 1	Race 2	Race 3	Race 4	Race 5

- A. Native Language** is a mandatory field. The user can select a language from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UND (undetermined) upon validation.
- B. Spoken Language** is a mandatory field. The user can select a language from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UND (undetermined) upon validation.
- C. Written Language** is a mandatory field. The user can select a language from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UND (undetermined) upon validation.

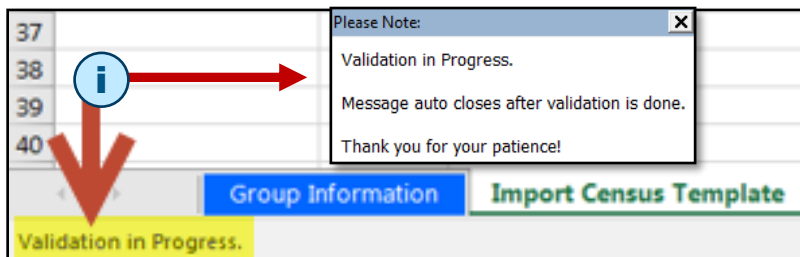

- D. Ethnicity** is a mandatory field. The user can select an Ethnicity from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UNK (unknown) upon validation.
- E. Race** is a mandatory field. The user can select a Race from the drop down, map data over or paste copied data as VALUES. If field remains blank, it will default to UNK (unknown) upon validation.
- NOTE:** *Race 1 field is mandatory. Additional Races can be added to Race 2 through Race 5 fields.*

# Data Validation

Once data entry is complete, click **File > Save** to validate the Census data. A **pop-up box** will display: **Is data entry completed for this Census?** with **Yes** and **No** buttons.

- A.** Click **Yes** if Census entries are complete. Existing data is saved. If values are blank in columns where the **AutoFill** feature is available, a default value will be entered systematically. Final validation rules will run.
- B.** Click **No** if you want to save existing data and return to complete the Census entry later.
- NOTE:** *Validation rules do not run.*

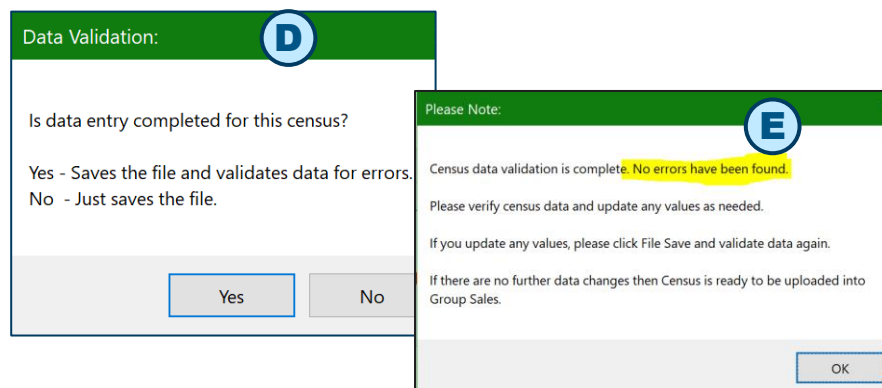

- i. Validation In Progress** indicators will display:
- Excel Status bar (bottom left corner)
  - Validation in Progress pop-up box
- ii. If no errors are found**, confirmation box displays and completed Census can be processed per current business process.
- iii. If there are any errors**, a message box displays indicating that errors have been found. Click **OK**.

# Data Validation Error List

In Cell	Error Description
C7	Relationship Code is required.
D8	Gender is required for Employee, Spouse and Dependent(s).
E8	Date of Birth is required for Employee, Spouse and Dependent(s).
C9	Relationship Code is required.
D10	Gender is required for Employee, Spouse and Dependent(s).
E10	Date of Birth is required for Employee, Spouse and Dependent(s).
D11	Gender is required for Employee, Spouse and Dependent(s).
E11	Date of Birth is required for Employee, Spouse and Dependent(s).
D12	Gender is required for Employee, Spouse and Dependent(s).
E12	Date of Birth is required for Employee, Spouse and Dependent(s).
C13	Relationship Code is required.
D14	Gender is required for Employee, Spouse and Dependent(s).
E14	Date of Birth is required for Employee, Spouse and Dependent(s).

- A. If there are data errors, the **Error List** tab will display:
  - **In Cell** column – specifies the cell location of the error.
  - **Error Description** column – specifies the column and the nature of the error.
- B. To update the values, click the **Import Census Template** tab. Change the values as needed. You can toggle between the **Error List** and **Import Census Template** tabs.
- C. Once you have corrected any errors, validate data again by clicking **File > Save**.
- D. Select **Yes** in the **Is data entry completed for this census?** message box.
- E. If no errors are found, a confirmation box displays and completed Census can be processed per current business process.

# Generate Automation File for Middle Market

**Important: Before generating the automation file, be sure to run data validation.**

- A.** From Excel Menu bar, click **Add-ins** option, then click **Generate Automation file OR** use the keyboard shortcut **Ctrl + Shift + I**.
- B.** **Does Group cover Domestic Partners?** message box displays along with **Yes** and **No** buttons.
- C.** If **Yes** button is selected, in the automation extract any **DP** (Domestic Partner) **Relationship Code** values will be highlighted in **yellow** for internal informational use.
- D.** Confirmation box displays after the file has been generated. Click **OK** button to return to the **Import Census Template**.
- E.** Generated file will be open in a separate Excel window and will be stored in the same folder as the Group's SCIT file with date and time stamp.
- F.** If file is generated multiple times, a new file will be generated each time along with date and time stamp. The prior generated file(s) will not be overwritten.

# Generate Billing Category and Product Category File for Middle Market Enrollment

**NOTE:** *This extract can be generated as needed.*

- A.** From Excel Menu bar, click **Add-ins** option then click **Generate Billing Category File**.
- B.** From Excel Menu bar, click **Add-ins** option then click **Generate Product Category File**.
- C.** A separate file will be generated that lists enrolling Subscribers with Billing Categories.
- D.** Confirmation box displays after the file has been generated.  
Click **OK** button to return to the Census Template.
- E.** Generated file will be open in a separate Excel window and will be stored in the same folder as the Group's SCIT file with date and time stamp.
- F.** If file is generated multiple times, a new file will be generated each time along with date and time stamp. The prior generated file(s) will not be overwritten.

# On Successful Validation, Upload SCIT into Small Group & Middle Market Enrollment Tool

The screenshot shows the 'Member Census' page in the Small Group & Middle Market Enrollment Tool. The page has a navigation bar with tabs: Account Information, Additional Information, Plan Selections, Member Census (active), Rates, Account Summary, and Release for Enrollment. Below the navigation bar, there's a 'Member Census' section with a 'Previous' button and a 'Continue' button. A red arrow points to the 'Import Census' button, which is circled in blue and labeled 'B'. Below this, there's an 'Import Census' dialog box. It contains instructions on how to save the import template and a list of steps. A blue circle 'F' is next to step 4. Below the instructions, there's a 'Select File to upload:' field with a file path and a 'Browse...' button, which is circled in blue and labeled 'C'. Below the file path, there's a message: 'A census already exists. Do you wish to overwrite or append to the existing census?'. There are two radio buttons: 'Overwrite' (selected) and 'Append'. A blue circle 'G' is next to the 'Overwrite' radio button. At the bottom right of the dialog, there's a 'Load File' button, which is circled in blue and labeled 'H'.

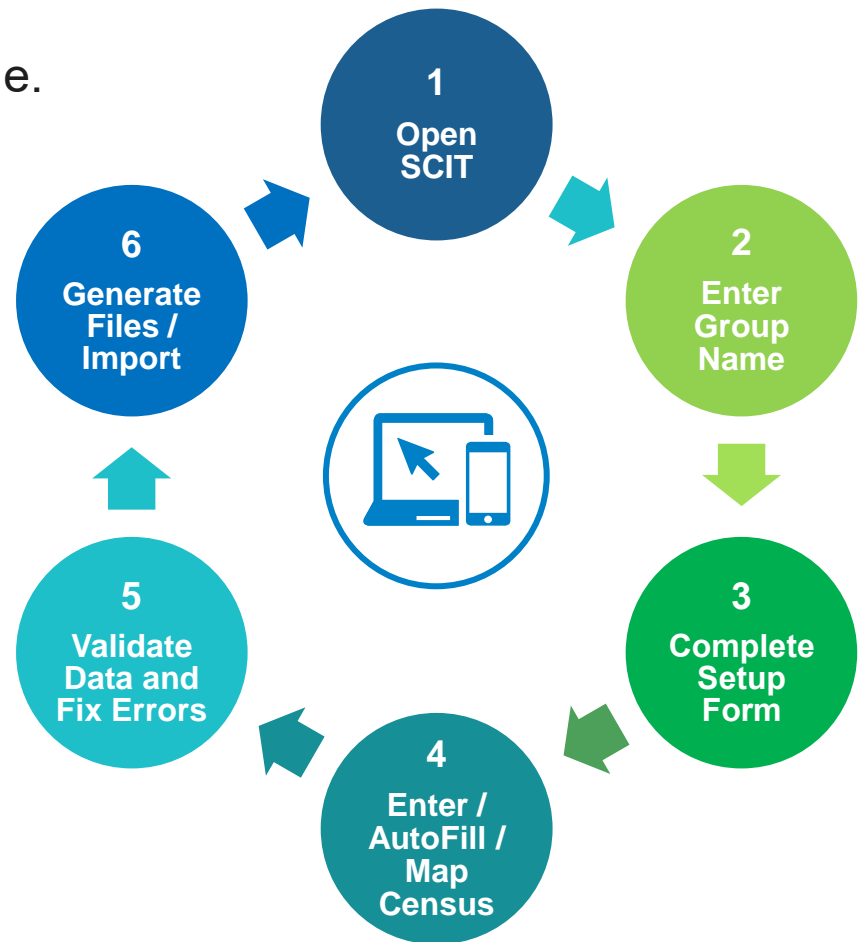

In SCIT, once Census data is validated and no errors are found, the Census is ready to be uploaded into **Small Group & Middle Market Enrollment Tool**.

## The upload steps have not changed.

- A. In the **Small Group & Middle Market Enrollment Tool**, navigate to the Group's **Member Census** page.
- B. Click the **Import Census** button.
- C. When the **Import Census** pops up, click **Browse**.
- D. Navigate to the folder that has SCIT with the group's filename.
- E. Select the file and click **Open**.
- F. Filename displays in the **Select File to upload** box.
- G. **Overwrite** existing Census information is selected by default. If needed, select **Append** radio button to add to existing Census information.
- H. Click the **Load File** button.

# Enter Census for the Next Group

To enter Census for the next group,  
**File Close** prior group's open SCIT file.  
Repeat Steps 1 through 6.

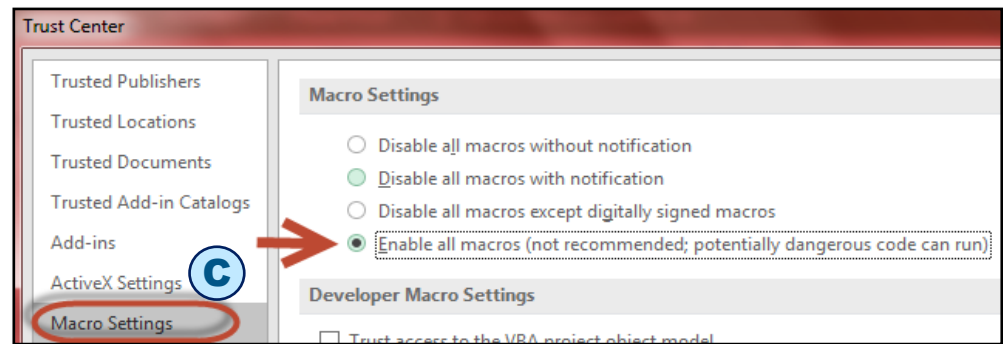

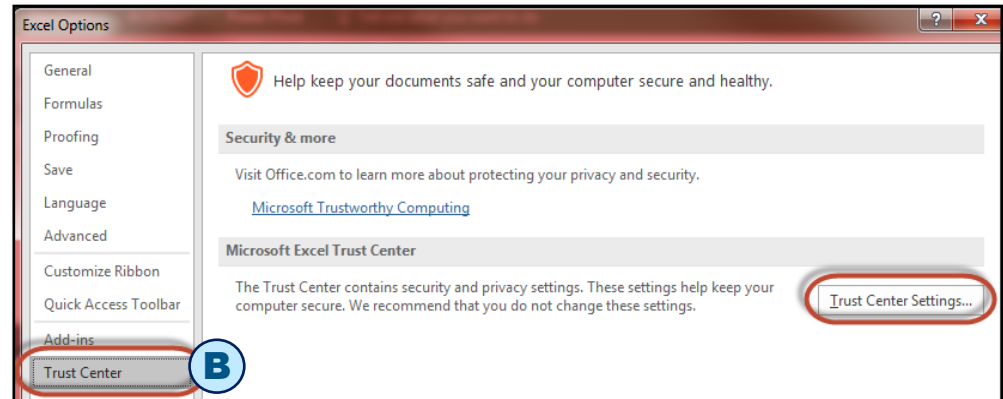

## Technical References

# Enable Macros

If **Enable Macros** is not enabled each time SCIT is opened, you will need to click the **Enable Content** button to use tool.

Once Macros have been enabled the first time, you will not need to click the **Enable Content** button each time SCIT is opened.

- A. From Excel menu, select **File > Options**.
- B. From Excel's **Options** box, select **Trust Center** and then click on **Trust Center Settings**.
- C. From Trust Center box, select **Macro Settings**. Then, select the checkbox for **Enable all macros**.

**WARNING:** Once this option is turned on, open files with macros **ONLY** from a trusted source.

# Macros – Security Risk

Throughout last 2023, Microsoft pushed out an updates to disable macros for security purposes. These updates disabled any macros contained in files downloaded from the internet or attached to emails. As a result, some users (depending on their Office version), need to remove the mark of the web due to the Security Risk below. If you see this message, follow the instructions on the next slide “Remove Mark of the Web”..

These instructions are to be followed after a new version of SCIT is downloaded. **Each time a new SCIT version is downloaded, the process will need to be repeated.**

**NOTE:** *BCBS has no control over this security update from Microsoft. Additional information on update can be found via link: **Macros from the internet will be blocked by default in Office.***

# Macros – Remove Mark of the Web (*Instructions*)

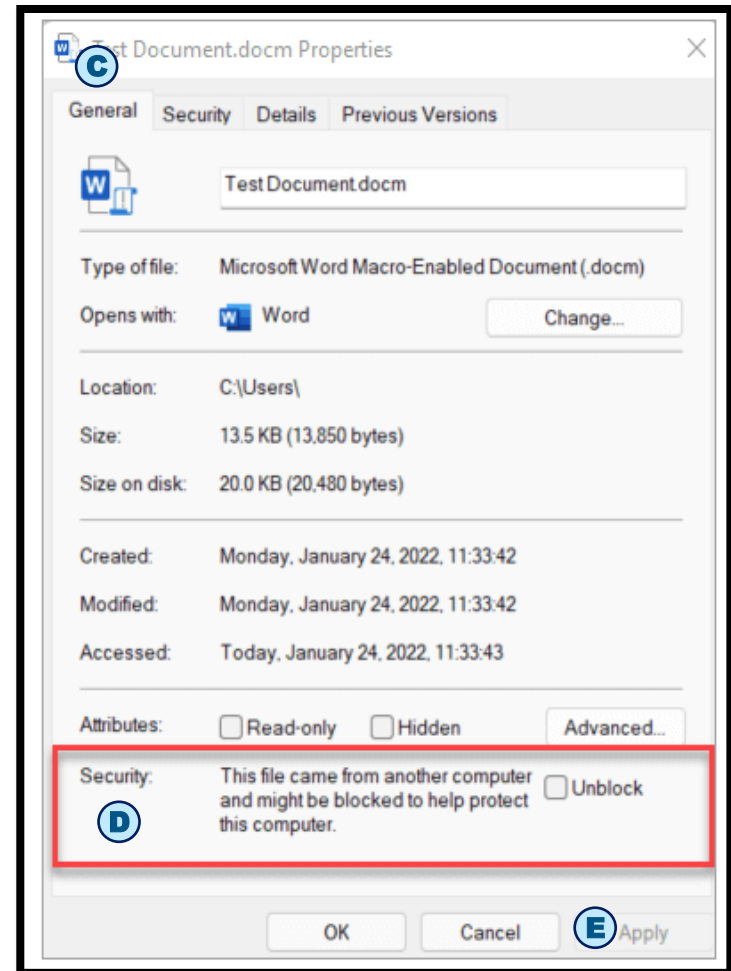

SECURITY RISK Microsoft has blocked macros from running because the source of this file is untrusted.

[Learn More](#)

For an individual file, such as a file downloaded from an internet location or an email attachment the user has saved to their local device, the simplest way to lock macros is to remove Mark of the Web.

- A. Save file to local device.
- B. Right-click on the file and select Properties from dropdown menu.
- C. Select the General tab.
- D. Under the Security section, select the Unblock checkbox.
- E. Click **Apply** button.

# Freeze Panes, Filter and Sort Features

## A. Freeze Panes as needed to make data entry easier.

- Click the first cell in the range you want to freeze.
- From Excel menu select **View**, then click **Freeze Panes**.
- Rows and columns before the **Freeze Pane** will be visible as you scroll through the rest of the columns and/or rows.
- To remove, select **View**, **Freeze Panes** and **Unfreeze Panes**.

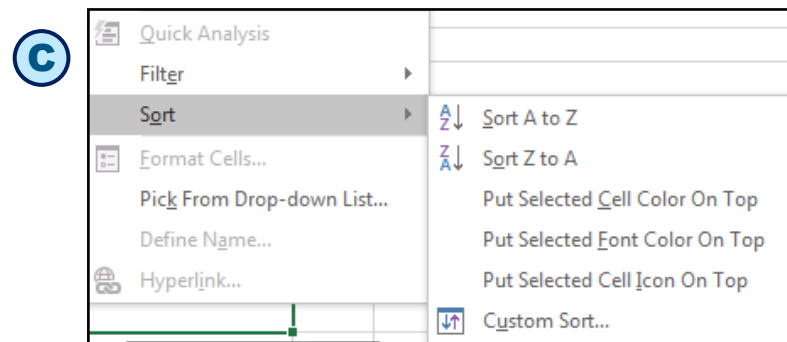

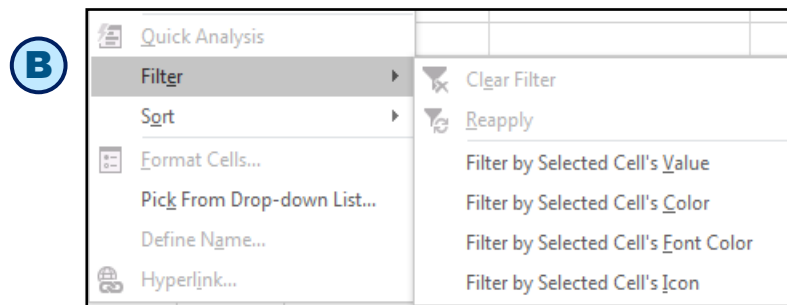

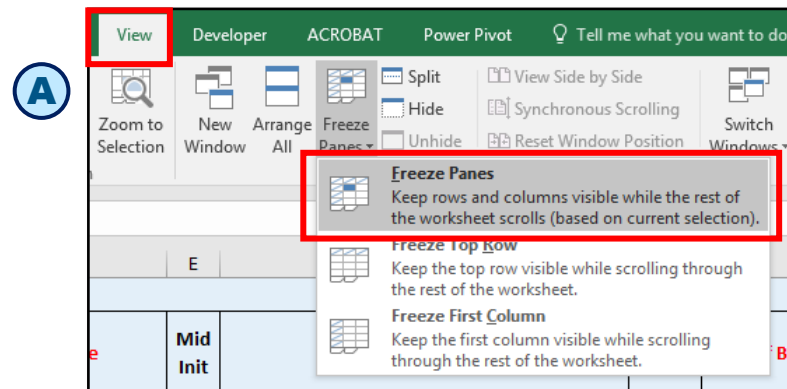

## B. Filter Census data as needed.

- Click in the cell, then right-click, and select **Filter**.
- Select a **Filter** option as needed.
- Apply and clear the **Filters** as needed.

**NOTE:** Even when the **Filters** are cleared the filter arrows will display. They will reset systematically and will not be displayed after you select **File > Save**.

## C. Sort Census data as needed.

- Click in the cell, then right click, and select Sort.
- Select Sort option as needed.
- Be sure to **highlight all the data rows**, columns A through BK.
- **WARNING: If column/row range is not selected correctly and Sort is applied, data will become jumbled.**
- Sort functionality is NOT available on the Error List tab.

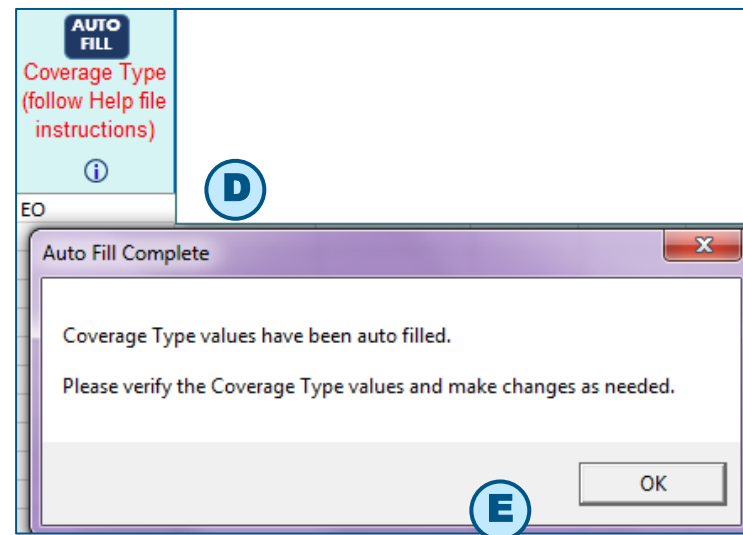

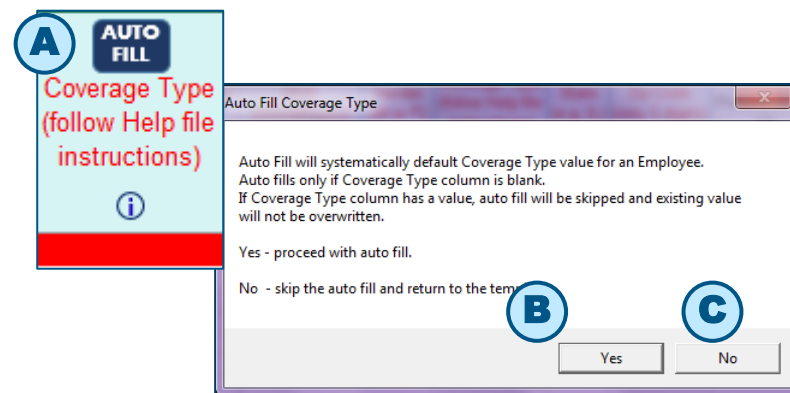

# AutoFill Feature

**AutoFill** feature is available for select columns where **AutoFill** button is displayed in the header.

- A.** Click **AutoFill**. Message box displays with information regarding the **AutoFill** for the column along with **Yes** and **No** buttons.
- B.** Click **Yes** to proceed with AutoFill.
  - If the values in the **AutoFill** column are blank, then a default value will be systematically populated.
  - If there is an existing value in the **AutoFill** column then AutoFill will be skipped, and existing value will not be overwritten.
- C.** Click **No** to skip AutoFill and return to the Template.
- D.** Message box displays after AutoFill is complete.
- E.** Click **OK** to close confirmation message “Please verify the auto-filled values and change these values as needed.”

**NOTE:** Coverage Type AutoFill is used for illustration.

# AutoFill Select Columns Reference Table

Column with AutoFill	Description	Available In
Accident Ins Coverage Type	AutoFills value of EO/ES/EC/EF based on Spouse and Dependent row(s) following the Employee/Subscriber row	SG Enrollment
Billing Category and Product Category	AutoFills typed in value for Enrolling Subscribers	MM Enrollment
Critical Illness Coverage Type	AutoFills value of EO/ES/EC/EF based on Spouse and Dependent row(s) following the Employee/Subscriber row	SG Enrollment
Dental Coverage (Y/N)	AutoFills value of Y for Employee choosing coverage	
Dental Coverage Type	AutoFills value of EO/ES/EC/EF based on Spouse and Dependent row(s) following the Employee/Subscriber row	SG/MM Enrollment
Employment Status	AutoFills value of A or Active for Employee	SG/MM Enrollment
Health Coverage (Y/N)	AutoFills value of Y for Employee choosing coverage	SG/MM Enrollment
Health Coverage Type	AutoFills value of EO/ES/EC/EF based on Spouse and Dependent row(s) following the Employee/Subscriber row	Available in all Templates
Selected Health Plan	AutoFills value of Plan 1 from Setup Form for Employee	SG/MM Enrollment
Medicare Primary	AutoFills value of N for Employees	MM Quoting

# AutoFill Select Columns Reference Table *(con't)*

Column with AutoFill	Description	Available In
Coverage Type		SG/MM Quoting
State Code or State	AutoFills value from the Division value entered on the Setup Form	Available in all Templates
State from Zip	Fills in State when Zip Code is present	Available in all Templates
Retiree (IL Only)	IL Division Only: AutoFills value of N for Employees	SG Quoting
Employment Status	AutoFills value of A or Active for Employee	SG/MM
Health Coverage (Y/N)	AutoFills value of Y for Employee choosing coverage	SG/MM
