

BlueCross BlueShield of Texas

# A Reason to Smile: 2023 BlueCare Dental<sup>SM</sup> Coverage for Small Group Plans Is Here.

## Small Group (1-50) Contributory Plans

All Blue Cross and Blue Shield of Texas (BCBSTX) small group qualified health plans include pediatric dental coverage as an essential health benefit embedded into the medical plan. Groups can purchase and layer a stand-alone dental plan with their existing health plan. This extends dental coverage to adult members age 19 and older.

## Embedded Pediatric Dental Benefits

Pediatric dental coverage is an essential health benefit under the Affordable Care Act (ACA). Small groups and retail plans are required to offer dental coverage to child dependents up to age 19.

- Pediatric dental is treated as any other benefit in the medical plan – coinsurance, copayments and other cost-sharing rules apply. Pediatric dental charges feed into the medical deductible and out-of-pocket maximum (OOPM).
- Groups no longer need to purchase an additional pediatric dental plan to meet ACA requirements.

# Optional Coverage: Stand-Alone Dental Plans<sup>1</sup>

Small groups can also purchase stand-alone dental coverage. These plans allow employers to offer family dental insurance to employees, expanding coverage beyond the pediatric benefits already included in the medical plan.

- Pediatric coverage and stand-alone dental plans are both offered by BCBSTX. This means members get the benefit of working with only one insurer.
- Stand-alone dental plans allow employees to purchase coverage for themselves and any dependents over age 19.
- Stand-alone dental plans may offer additional benefits to child dependents under age 19 than the pediatric coverage already embedded in the medical plan.
- Groups can purchase stand-alone dental coverage without having a medical plan in place, if they wish to only offer dental coverage to employees. Groups can also add stand-alone dental coverage to their BCBSTX medical plan, or to a medical plan from a different carrier.

**NOTE:** DTXHR30 and DTXLM44 are new for 2023.

IN = In-network; OON = Out-of-network

1. This document does not contain a complete listing of the exclusions, limitations and conditions that apply to the benefits shown. For full information, refer to the benefit booklet.

2. Waived Deductible applies to this service.

3. Only Basic Restorative Services are covered.

4. Preventive services will not count toward maximum annual benefit.

Examples

Members’ out-of-pocket costs can vary depending on whether they purchase a stand-alone family plan or simply use the embedded pediatric dental coverage included in their medical plan. Here are some sample services and member costs:

Service	Cost of Service	Member with Embedded Benefit Pays	Plan DTXHR31
Deductible		\$3,000	\$25
<b>Preventive:</b> cleaning, exams, and X-ray	\$200	\$200 toward medical deductible and coinsurance. No adult coverage	\$0*
<b>Basic:</b> filling	\$140	\$140 toward medical deductible and coinsurance. No adult coverage	<b>Child or adult member pays \$48</b> (\$140 - \$25 deductible = \$115, then 20% of \$115 balance = \$23 plus \$25 deductible)**
<b>Major:</b> root canal	\$900	\$900 toward medical deductible and coinsurance. No adult coverage	<b>Child or adult member pays \$462.50</b> (\$900 - \$25 deductible = \$875, then 50% of \$875 balance = \$437.50 plus \$25 deductible)**

**Note:** The dollar amounts shown are for illustrative purposes only. Check with your provider and your benefit booklet for provider charges, deductible, coinsurance and dollar maximums that may apply.

Get more information at [bcbstx.com](http://bcbstx.com) or contact your BCBSTX Account Representative.

\*Deductible is waived for preventive services.  
\*\*Calculations assume deductible had not been previously met.
